AMerican Machinist

McGRAW-HILL, INC. 330 WEST 42nd STREET, NEW YORK, N.Y. 10036

# CONTENTS OF VOLUME 109 JANUARY TO DECEMBER, 1965

## A

**Abrasives**
- Diamond inserts solve a grinding problem — Mar. 1 47
- The great abrasive skirmish (ed) — Apr. 26 63
- 1965 outlook – Technical outlook: abrasive finishing and cleaning (report) — Jan. 18 150
- Voluntary abrasive industry standard (T) — Aug. 16 21

**Adapters**
- Adapter for standard grinder. J. Thorne (PI) — Dec. 20 94
- Cutter lengths pre-set with new adapters and holders (MR) — Apr. 26 3

**Adhesives**
- Adhesive for sticking zinc to itself or wood (MR) — Jan. 4 3
- Adhesive replaces silver solder for aluminum parts (MR) — Aug. 30 3
- Diffusion-bonded couplings connect different metals (MR) — Oct. 25 4
- Diffusion bonding gets assist from shrink fit (MR) — Sept. 13 3
- Diffusion bonding uses silver between aluminum (MR) — Mar. 15 4
- How to work 8-1-1 titanium. George DeGroat — May 10 67
- Organic adhesives are forecast for high-temp use (MR) — Dec. 20 4
- SAE's West Coast meeting – advances in joining aerospace metals — Oct. 25 96
- Titanium alloys formed by roll-diffusion bonding (MR) — Aug. 2 3

**Aerospace Manufacturing**
- Aerospace firms backing colossal forging press (T) — Feb. 1 49
- Air Force looks to 1975 and sees fewer, better machine tools (charts & tables) — July 5 80
- APT-less contouring tapes? S.H. Chasen — July 5 69
- Boeing buys German-built tools (T) — Mar. 15 75
- Boeing tells why titanium is superior to other metals for the SST airframe (T) — Oct. 25 41
- 'Buy 551 NC profilers by 1969' – Ad Hoc Advisory Machine Tool Committee to Air Force (chart & tables) — May 24 77
- Centrifuge spins burrs away – 'Harperizer' finishing machine. J.E. Sandford (table) — Mar. 29 73
- Cold forming titanium sheet. Berkland & Alarie — Jan. 18 112
- Computer reads weld x-rays. Szabo & Eppler — Aug. 16 86
- Contributions that aerospace industry is making to our way of life – 'harvest from the heavens' (T) — Nov. 8 37
- Convair combines new aluminum-forming methods — Apr. 12 171
- Doubling a Keller's output turns out six jet transport flap tracks at a time. Charles Emerson — Mar. 1 37
- Doubling Kellering serves up almost two-fold flap tracks for C-141 jet planes (MR) — Mar. 1 4
- Drawing limits for aerospace alloys (Ref. Bk. Sheet) (table) — July 5 101
- EDM cuts some 'impossibles' – fuel line gimbals. Kauffman & Schlesselman — Dec. 20 68
- Electron beam goes on the line at Aerojet-General. George DeGroat — Apr. 26 75
- Filament winder for big booster (T) — Aug. 2 37
- Five-tool vertical contouring for turbine nozzle — Feb. 15 72
- Grundrill helps cool Agena. Gus Dabringhaus — Feb. 1 61
- Gundrilling small, deep holes up to 15½-in. long in a rocket nozzle (cover) — Feb. 1 1
- Hammer forming a laminate for Minuteman missile. Bjork & Foster — Feb. 15 74
- Hi-temp composite heat shield (T) — Mar. 29 65
- Higher pressure air for tools? — Apr. 26 70
- Honeycomb and the F-111 (T) — Nov. 22 39
- How to peen ID's of tubes. R.E. Layton — May 10 77
- How to work 8-1-1 titanium. George DeGroat — May 10 67
- "Investment" electroforming turns out high-strength parts with repeatable accuracy Pichel & Hasselman — Jan. 4 56
- Limits for bends in aerospace alloys (Ref. Bk. Sheet) (table) — July 5 103
- Limits for tube building (Ref. Bk. Sheet) (table) — July 19 115
- Lockheed and the C-5A (T) — Oct. 25 37
- Lockheed and the SST (T) — Apr. 26 53
- Magnetic forming in a big way – 40 capacitors bend large elbows. Larrimer & Hinks — Jan. 4 47
- NASA's top contractors (T) — Mar. 15 75
- New coatings for hot jobs – pack cementation. Aves Jr. & Ecord — Mar. 29 81
- NC lathes turn a quick profit at GE's Large Jet Engine Dept. Bergman & Griffith — Apr. 12 69
- On diversification (T) — Dec. 6 35
- Running rings around Saturn
  1. Optics caliper Saturn's rings. E.V. Mades — July 5 73
  2. Stress relieving Saturn's rings. Isaac Bensussen — July 5 76
- SAE's Aeronautic and Space Engineering and Manufacturing meeting in L.A. – all out for adaptive controls? — Oct. 25 96
- SST program acceleration (T) — Aug. 2 37
- Shrink-fit bearings for variable wings for Boeing's proposed SST. Ray Bloomberg — Feb. 1 64
- Spinning limits for aerospace alloys (Ref. Bk. Sheet) (table) — July 19 113
- Threaded bushings for aircraft are prepared for high-speed deburring (cover) — Mar. 29 1
- Titan III rocket engine frame – rings control welding heat. W.G. Smith, Jr. — June 7 114
- Tough metals formed cold. C.W. Phillips (chart) — Aug. 2 95
- Two boosts for Saturn
  1. Huge fixtures weld the S-IC. W.B. Edmiston — June 7 109
  2. NC contouring with a punchpress. Gary Neher — June 7 112
- V/STOL – for and against – Stanford Research Institute study (T) — Aug. 16 35
- Vapor depositing pyrolitic graphite — Apr. 26 78
- Westec show – Japan, Italy and Canada — Mar. 15 99

**Air Compressors** (see **Compressed Air**)

**Aircraft** (see **Aerospace**)

**Aluminum**
- Adhesive replaces silver solder for aluminum parts (MR) — Aug. 30 3
- Aluminum alloys protected against stress-corrosion (MR) — July 19 4
- Aluminum die forgings (Ref. Bk. Sheet) (table) — Dec. 6 117
- Aluminum extrusions, 1 & 2 (Ref. Bk. Sheets) (tables) — Feb. 15 99
- 'Chemidize' – new aluminum surface protector (MR) — Nov. 22 3
- Clad fins for Al cores solder better (MR) — Feb. 1 4
- Convair combines new aluminum-forming methods — Apr. 12 171
- Die-cast aluminum motor frames – first in U.S. (MR) — May 24 4
- Diffusion bonding uses silver between aluminum (MR) — Mar. 15 4
- Electroplating onto aluminum – new process (MR) — Nov. 22 4
- Forged aluminum car wheels hold up under an extra ton (MR) — Feb. 1 3
- Hammer forming a laminate for Minuteman missile. Bjork & Foster — Feb. 15 74
- High finishes at high speeds. George DeGroat — Dec. 20 64
- High-purity aluminum at lower cost by Reynolds 'freeze purification process' (T) — Mar. 1 19
- High-tin Al in coiled sheets for bearings (MR) Apr. 12-4, (T) — Apr. 12 57
- Honeycomb and the F-111 (T) — Nov. 22 39
- Lapping material (T) — Jan. 4 33
- Magnetic forming 12-in-OD aluminum elbow. Larrimer & Hinks — Jan. 4 47
- New angles in drilling – manufacturing a TV antenna — June 21 112
- Outlook for nonferrous metals (T) — June 21 45
- Paste-type spray cleans and treats aluminum parts (MR) — Dec. 6 3
- Protecting aluminum alloys (T) — Aug. 2 43
- Punching deep-drawn shells for aluminum fry basket. M.J. Goldstein — Dec. 20 61
- Running rings around Saturn.
  1. Optics caliper Saturn's rings. E.V. Mades — July 5 73
  2. Stress relieving Saturn's rings. Isaac Bensussen — July 5 76
- Sputtering system yields high rates in metal plating (MR) — Feb. 15 4
- A stockpile is not a toy (ed) — Dec. 6 83
- Strip coating at 200 fpm — June 7 119
- Tough metals formed cold. C.W. Phillips (chart) — Aug. 2 95
- Tough metals formed without heat (MR) — Aug. 2 4
- Two boosts for Saturn
  1. Huge fixtures weld the S-IC. W.B. Edmiston — June 7 109
  2. NC contouring with a punchpress. Gary Neher — June 7 112
- Ultrasonics speeds anodizing of aluminum (MR) — May 24 3
- Vacuum-forming for sheet metal – 78% Zn, 22% Al alloy sheet superplasticity study — June 7 116

**American Machinist Reports** (see **Special Reports**)

American Society of Metals – Westec show — Mar. 15 99

**American Society of Tool & Manufacturing Engineers**
- A look at the Tool Show – EDM, NC, finishing share the limelight — Apr. 12 74
- 1965 Tool Show
  - List of exhibitors — Mar. 15-131-136
  - Technical program — Mar. 15 137
  - Tool Show in print — Mar. 15-138-188
- Westec show — Mar. 15 99

American Welding Society – Electron-beam welding, 1 & 2 (Ref. Bk. Sheets) (table) — Mar. 29 97

Anodizing – Ultrasonics speeds anodizing of aluminum (MR) — May 24 3

**Apprentices** (see **Training**)

Arbors – Gage stop for arbor ram. R. Hill (PI) — Nov. 8 114

**Assembly**
- All-PM differential wins award from Metal Powder Industries Federation — July 19 96
- Assembling aluminum fittings to plastic hose (MR) — Dec. 6 4

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

Assembly fixture runs both hot and cold (MR) ... Mar. 15 3
Assembly of fuel injection devices is speeded by two unusual conveyor lines (cover) ... Dec. 6 1
Assembly of a large single-action press for the auto industry (cover) ... May 10 1
Automatic assembly and inspection of automobile ballscrew assemblies (cover) ... Mar. 1 1
Automatic pin, piston gaging in the automotive industry ... Nov. 22 94
Brake shoes formed and welded in assembly unit (MR) ... Jan. 18 3
Decisions, decisions – automatically – machine measures two parts, picks which bearing ball size fits best, then assembles part. Charles Emerson ... Mar. 1 48
Diffusion-bonded couplings connect different metals (MR) ... Oct. 25 4
'Erector sets' cut tooling costs. Walter Dittmer ... July 5 71
Ford – manufacturing today 3. 1000 axles an hour! ... Dec. 20 85
Gears and pinions assembled at rate of 2,500 an hour (MR) ... June 7 4
Making a light frame rigid – Xerox's desk-top copier ... May 10 81
New angles on conveyors for assembly of fuel injection devices. Rupert LeGrand ... Dec. 6 94
1965 outlook – Technical outlook: assembly (report) ... Jan. 18 145
Precision assembly room (T) ... Jan. 18 99
A primer on automatic assembly. Charles Emerson (report) ... Feb. 15-83-98
Shrink-fit bearings for variable wings for Boeing's proposed SST. Ray Bloomberg ... Feb. 1 64
Threadserts snap on shafts to add threads (MR) ... Dec. 20 3
Tool assembles and checks. F. Strasser (PI) ... Mar. 15 194
22-station machine assembles components of front end suspensions (cover) ... Feb. 15 1

Atomic Power – Machinability and the atom (T) ... Apr. 26 57

**Automation**
Automated forging uses Impacter and Unimate robot (MR) ... Nov. 22 3
Automatic assembly and inspection of automobile ballscrew assemblies (cover) ... Mar. 1 1
Automatic molding at work. L.V. Stranne ... Aug. 16 88
Automatic pin, piston gaging in the automotive industry ... Nov. 22 94
Automatic size controls for grinding. James Sandford ... June 21 111
Automation commission receiving studies (T) ... Dec. 6 37
Automation: hysteria and hope (ed) ... May 10 65
Automation and unemployment reports (T) ... Dec. 6 23
Clean bill of health for automation – reports from NMTBA and NTDPMA ... Dec. 6 89
Computer speeds materials flow at IBM plant ... Nov. 8 81
Decisions, decisions – automatically – machine measures two parts, picks which bearing ball size fits best, then assembles part. Charles Emerson ... Mar. 1 48
'Gatling gun' controls drilling. Ed Addeo ... Jan. 4 54
A primer on automatic assembly. Charles Emerson (report) ... Feb. 15-83-98
The real news about automation – excerpts from article by C.E. Silberman in Fortune ... Mar. 15 101
Strip coating at 200 fpm ... June 7 119
When you switch to automatics, . . tips on how to bring scheduling, tooling and operating methods into line. K.U. Matt ... Jan. 4 51

**Automobile Manufacturing**
The AM Award – Charles H. Patterson ... Dec. 20 76
Automatic assembly and inspection of automobile ballscrew assemblies (cover) ... Mar. 1 1
Automatic pin, piston gaging ... Nov. 22 94
Brake shoes formed and welded in assembly unit (MR) ... Jan. 18 3
Cadmium-bearing copper vs silver cuts stock for radiators (MR) ... Feb. 1 4
Cam control cuts contouring costs. George DeGroat ... Sept. 27 71
Canada-U.S. "free trade" – duty windfall for automakers (T) ... Feb. 1 47
Clad fins for Al cores solder better (MR) ... Feb. 1 4
End to hole piercing in auto bodies? New stud welding system ... Feb. 15 79
Ford – manufacturing today
1. How Ford makes dies with NC ... Dec. 20 80
2. Computer tests transmissions ... Dec. 20 83
3. 1000 axles an hour ... Dec. 20 85
Ford Werke runs ultra-modern press line ... Oct. 25 151
Forged aluminum car wheels hold up under an extra ton (MR) ... Feb. 1 3
Forming a plastic car in 15 minutes – Cycolac ABS sports car ... May 10 88
How to kill competition (ed) ... Aug. 16 81
Think about it (ed) ... Aug. 16 81
Japanese automaker, Toyota Motor Co. gets loan (T) ... Apr. 26 47
Mexico's diesel engine decree (T) ... Feb. 15 63
Mexico – more on machines (T) ... Mar. 1 31
NC for 'broken' long runs at John Deere-Dubuque Tractor Works. B.C. Brosheer ... Nov. 8 82
Of Japanese cars and Canada (T) ... July 5 35
Pistons ride a roller coaster – Chevrolet-Tonawanda Mark IV engine plant. Charles Emerson ... Sept. 27 62
Soluble-oil central system more accurate (MR) ... Jan. 4 4
Sonic press for forging, forming now a possibility. Dr. L. Balamuth ... Jan. 18 118
Soviet autos for Australia (T) ... July 19 39
Startling Olds (T) ... July 19 29
Three lathes do work of six – single-point tracing of track rollers ... Oct. 11 112
Transfer dies cut scrap loss (charts) ... June 7 120
Two new Volkswagens (T) ... Nov. 8 31
World auto production climbs (table) ... Mar. 29 90

**Awards**
All-PM differential wins award from Metal Powder Industries Federation ... July 19 96
THE AM Award – Charles H. Patterson ... Dec. 20 76
Patterson, Charles H., winner of the AM Award for distinguished contributions to manufacturing (cover) ... Dec. 20 1

## B

**Bearings**
Bearings solve problem with sliding friction. F. Strasser (PI) ... Dec. 20 94
Boosting bearing life (T) ... Aug. 16 45
Four-slide halves separator costs ... Apr. 12 77
High-speed orbiting tumbles metal off bearings (MR) ... Mar. 1 4
High-tin Al in coiled sheets for bearings (MR) Apr. 12-4, (T) ... Apr. 12 57
Operation sheets from a computer for bearing manufacture ... Nov. 8 90
Plastic bearings (T) ... May 10 59
Shrink-fit bearings for variable wings for Boeing's proposed SST. Ray Bloomberg ... Feb. 1 64
Why do bearings fail? Charles Emerson ... Oct. 11 116

Belting – Backbone tie-band prevents jumping in multiple V-belt (MR) ... Oct. 25 4

**Bending**
Bending bars at sharp angles. A. Vena (PI) ... Mar. 1 76
Limits for bends in aerospace alloys (Ref. Bk. Sheets) (table) ... July 5 103
Radii as tight as 2/3 tube diameter, up to 180° bend (MR) ... Oct. 25 4
Split line forms furnace cases ... Apr. 26 72

**Beryllium**
Joint U.S. and Great Britain beryllium program (T) ... July 5 33
1965 outlook – Technical outlook: materials (report) ... Jan. 18 147

**Blanking** (see **Stamping**)

**Blocks** (see **Dies, V-blocks**)

Bolts – Plastic patch locks bolt against vibration (MR) ... Dec. 20 4

**Bonding** (see **Adhesives**)

**Book Reviews**
Adhesive Materials, their properties and usage, Supplements ... Nov. 8 218
Automatic Screw Machine Handbook ... Jan. 4 130
Creative Synthesis in Design ... Nov. 8 218
Die Design Handbook (2nd Edition) ... Nov. 8 218
Die Drehmaschinen – Drehbanke und Verwandte Werkzeugmaschinen (Turning Machines, Lathes and Related Machines) ... Mar. 1 115
Glossary of Data Processing and Communications Terms ... Mar. 1 115
An Introduction to Patents for Inventors and Engineers ... Nov. 8 218

**Boring**
Bore peening finishes cylinders – 'bearingize' process. D.R. Dorff ... Jan. 4 66
Boring bar pivots in special holder. J. Waller (PI) ... May 10 115
Boring bars made quickly. R. Phillip (PI) ... Nov. 22 140
Cam control cuts contouring costs. George DeGroat ... Sept. 27 71
Collar adjusts boring tools. H. Spinks (PI) ... July 19 122
Collars curb deflection on extended boring bar. R. Phillip (PI) ... Dec 6 124
NC boring mill to take 1-million-lb nuclear vessels (MR) ... Nov. 22 3
NC guides a two-headed elephant – Farrel boring mill ... Oct. 25 102
Optics caliper Saturn's rings. E.V. Wades ... July 5 73
Precision boring of 3000-lb parts two at a time (MR) ... Feb. 15 4
Self-supporting boring bar takes big bite (MR) ... Dec. 6 3
Sulfur pilots a boring bar ... Aug. 16 85
Throw-away carbides for deep boring (MR) ... Aug. 2 3
Transfer-line approach for small lots of flywheels (MR) ... Aug. 2 3
'Transfer line' for short runs – machining tractor flywheels ... Aug. 16 83
Two NC boring heads move on rails over 33-ft table (MR) ... Oct. 25 3
Boron – Air Force looks at boron (T) ... May 24 63

**Brakes** (see **Press Brakes**)

Brass – One-microinch finish on turned brass parts (MR) ... Oct. 11 3

**Brazing**
'Bracelet' brazing furnace for small spaces ... Dec. 20 63
Brazing aluminum to brass. V. Pounj (PI) ... Dec. 6 124
Brazing insures oil tight drain bushings ... Feb. 1 74
Brazing a two-mile-long pipe – Stanford University's linear accelerator. George DeGroat ... Apr. 12 65
Coating reduces stainless brazing temperatures (MR) ... Sept. 27 3
How to work 8-1-1 titanium. George DeGroat ... May 10 67
New alloy brazes titanium to stainless (MR) ... May 10 3
Silver brazing pipe joints with infrared furnace (MR) ... June 21 4
Vertical furnace brazes assembly of rings and disks for 2-mile linear accelerator (cover) ... Apr. 12 1

**Broaching**
Broach teeth checked quickly. E. Goulet (PI) ... Mar. 15 193
What you should know about broaching. C.O. Lofgren (report) ... Aug. 2-101-108

Burnishing – Vibratory finishing of complex parts. George DeGroat ... May 24 80

**Burring** (see **Deburring**)

**Bushings**
Brazing insures oiltight drain bushings ... Feb. 1 74
Coned bushing curbs chatter. J. Waller (PI) ... May 24 113
Removing pins and bushings from blind holes. G. Smith (PI) ... Aug. 2 117
Threaded bushings for aircraft are prepared for high-speed deburring (cover) ... Mar. 29 1
Why not try square bushings? J. Waller (PI) ... Apr. 12 99

## C

Cadmium – Cadmium-bearing copper vs silver cuts stock for radiators (MR) ... Feb. 1 4

**Calipers**
Caliper gages I-beams. K. Gupta (PI) ... Apr. 26 107
Modified calipers find new uses. E. Goulet (PI) ... Apr. 12 99
Optics caliper Saturn's rings. E.V. Wades ... July 5 73

**Cams**
Cam control cuts contouring costs. George DeGroat ... Sept. 27 71
Tool simplifies cam layout. M. Berman (PI) ... Mar. 1 76

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

Canada – Canada's five-year plan (T) ... June 7 51

**Capital Investment**
AM survey shows: machine tool buying to ride high through '66. E.M. Stecher (report) (charts & tables) ... Aug. 30-85-96
Balance of payments (cover) ... May 24 1
Canada's five-year plan (T) ... June 7 51
Capital spending climbs to record high (table) ... Nov. 8 85
Capital spending to rise 15% this year (table) ... May 10 79
Credit where it's due (ed) ... Mar. 29 71
Defense budget moves (T) ... July 5 25
Don't eat the seed corn (ed) ... Mar. 1 35
Economic prospects through 1980 (T) ... Oct. 25 49
The 'final' factor (ed) ... Aug. 2 85
How cutback in defense spending affects individual states (T) ... Mar. 15 71
How to keep payments balanced (ed) ... May 24 69
Incentives for capital investment (T) ... Oct. 25 39
The millennium has not arrived (ed) ... Nov. 22 85
1965 outlook (cover) ... Jan. 18 2
1965 outlook: another record year (charts & tables) (report) ... Jan. 18 123
The PCQ of productivity (ed) ... June 7 107
PCQ: spotting productivity change – report (charts) ... June 7-129-138
The phantom and the formula (ed) ... Nov. 8 77
The real news about Chicago (ed) ... Oct. 11 105
Remember the soaring '60's? (ed) ... Aug. 30 69
The role of metalworking in the balance of payments. J.J. Dwyer Jr. (report) (charts & tables) ... May 24-85-100
September rivalries (ed) ... Sept. 27 51
Stockpile sales outlook brightens (T) ... Apr. 26 49
Watch those variable costs! S.K. Wood (chart & tables) ... Feb. 15 80

**Carbides**
Better carbide tools on the way? (T) ... Mar. 15 79
Bonded diamond wheel for formed grinding carbides (MR) ... Sept. 13 4
Carbide cuts without coolant. A.P. Goeppert ... Oct. 11 114
Carbide inserts cut faster with less hp (MR) ... Oct. 11 3
Carbide inserts up die life 10:1 ... Jan. 18 120
Diamond grinding without loading ... May 24 84
EDM replaces diamond grinding for carbide dies (MR) ... Aug. 2 4
Graphite wheels form carbide electrochemically (MR) ... Aug. 16 3
Inserts locked with specially shaped pivoting pin (MR) ... Apr. 12 3
New turning tool test. L.A. Sowinski (charts & table) ... Mar. 15 87
Correction ... Mar. 29 85
Of whiskers and filaments (T) ... Feb. 15 61
Silicon carbide whiskers – whiskers will, in fact, denote strength (MR) ... Feb. 15 3
Standard for sintered carbide nibs and dies (MR) ... Jan. 4 4
Three lathes do work of six – single-point tracing ... Oct. 11 112
Throw-away carbides for deep boring (MR) ... Aug. 2 3

**Cast Iron**
Adding tin cuts cost of machining gray cast iron (MR) ... July 19 3
Bore peening finishes cylinders – 'bearingize' process. D.R. Dorff ... Jan. 4 66
Machining tin-alloyed iron. J.H. Sperman ... July 19 86
'Transfer line' for short runs ... Aug. 16 83

**Casting**
Castings sealed for testing. J. Waller (PI) ... Oct. 11 147
Foam patterns catch hold. Charles Emerson ... Jan. 18 114
Full mold castings may displace welded machine bases (MR) ... Feb. 1 4
Less 'gassing' about continuous casting (MR) ... Mar. 1 3
Machining tin-alloyed iron. J.H. Sperman ... July 19 86
Multi-part cores up precision for investment casting (MR) ... Feb. 15 4
Precision casting technique (T) ... May 24 59
Stainless casting alloys (T) ... Aug. 30 41

**Casting** (see also **Die Casting**)

**Centering**
Bottom tap is center plug. R. Hill. (PI) ... Feb. 1 91
Cup keeps drill on center. C. McLaughlin (PI) ... Mar. 15 193
Magnet base for centering. B. White (PI) ... Feb. 1 92
Springs hold work on center. F. Schramm (PI) ... Feb. 1 92
Tool saves wear on centers. F. Rush (PI) ... Jan. 18 165

**Ceramics**
Beryllium oxide soldering tip won't tin (MR) ... Mar. 15 4
Ceramic cutting tools (MR) ... Feb. 1 4
Lightweight, ceramic armor (T) ... Nov. 22 39
Machine rigidity key to long life of ceramic tools (MR) ... June 7 3
Multi-part cores up precision for investment casting (MR) ... Feb. 15 4
Oxide wheels go conductive – something new in electrolytic grinding ... Mar. 15 107
Plasma arc spraying forms resistant cermet heaters (MR) ... Sept. 13 4
Taking heavy cuts with ceramics. Harold Smith ... May 24 82
Though metals formed cold. C.W. Phillips (chart) ... Aug. 2 95

**Chemical Milling**
How to micro-mill small parts, 1 & 2. Frank Dougherty (Ref. Bk. Sheets) ... Apr. 12 89
1965 outlook – Technical outlook: chemical milling (report) ... Jan. 18 150
Spray for chemical milling both sides of metal (MR) ... June 21 4

Chicago Show issue (cover) ... Sept. 13 1
Where to eat in Chicago ... Sept. 13 25
Machine Tool Show – 1965 ... Sept. 13 159
Production Engineering Show ... Sept. 13 389
International Machinery Show ... Sept. 13 517
The Chicago shows ... Oct. 11 121

Chips – Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ... Mar. 15-109-124

**Chromium**
Chrome is plated quickly into deep grooves (MR) ... July 5 3
Chrome plate process boosts corrosion resistance of steel (MR) ... May 10 3
Chrome plating is faster with new bath (MR) ... Nov. 8 3
Microcracked chrome plate for auto parts (MR) ... Dec. 20 4

**Chucks and Chucking**
Chuck makes piercing die. H. Koslow (PI) ... Feb. 1 91
Chuck removes ball bearings. C. Heimlicher (PI) ... May 24 114
'Instant tooling' for chucker setup ... Apr. 26 74
New jobs for magnetic chucks ... Mar. 15 95
Nonstop chucking speeds internal grinding (MR) ... Nov. 8 3
Precision chucker with NC does contouring work (MR) ... Sept. 13 3
Rotary templet controls twin chucking machine (MR) ... Feb. 1 3
Rotary templet guides chucker ... Feb. 1 70
Shaped chuck jaws held in collet. J. Waller (PI) ... Mar. 1 75
Small chucking reamers, 1 & 2 (Ref. Bk. Sheets) (tables) ... Mar. 15 127
Taking heavy cuts with ceramics – team-up of chuckers and ceramics. Harold Smith ... May 24 82

**Clamps**
Clamp speeds die grinding. A. Pippi (PI) ... July 5 110
Height adjusting clamp. K. Gupta (PI) ... May 24 114
Inserts locked with specially shaped pivoting pin (MR) ... Apr. 12 3
Lead screw becomes clamp. A. Pippi (PI) ... June 21 136
Odd aluminum shapes held for milling. F. Rush (PI) ... Mar. 15 193
Toggle pad simplifies clamp design. R. Isetts (PI) ... Sept. 27 95

**Cleaning**
Cleanup campaign cleans up – Hoover Ball and Bearing five-year-old campaign ... June 7 123
Keeping oil mist under wraps. L.E. Geyer ... Aug. 30 84
1965 outlook – Technical outlook: cleaning and finishing (report) ... Jan. 18 150
Paste-type spray cleans and treats aluminum parts (MR) ... Dec. 6 3
Potassium salt bath descales at 400-425 F (MR) ... Nov. 8 3
Selecting a prepaint line. S. Spring ... June 21 107

**Coatings**
Big growth seen in clad metals use (T) ... Sept. 13 65
A look at plastic coatings. D.E. Erickson ... Feb. 15 69
Low-temperature phosphating from Bulgaria (MR) ... June 7 3
New coatings for hot jobs – pack cementation. Aves Jr. & Ecord ... Mar. 29 81
Protective coats are plated on magnesium-lithium (MR) ... Nov. 8 4
Selecting a prepaint line. S. Spring (table) ... June 21 107
Strip coating at 200 fpm ... June 7 119
Vapor coating. J.E. Sandford (report) ... Mar. 1-51-66
Vapor depositing pyrolitic graphite ... Apr. 26 78

Cobalt – 1965 outlook – Technical outlook: materials (report) ... Jan. 18 148

**Coining** (see **Stamping**)

**Cold Treatment**
Cold forming titanium sheet. Berkland & Alarie ... Jan. 18 112
Highly ductile vanadium can be cold-processed into sheet, rod or wire without annealing (T) ... Jan. 18 91
Now it's warm heading. J. W. Keegan (table) ... Oct. 11 110
Oil aids cold forming (table) ... July 19 88
Tough metals are formed without heat (MR) ... Aug. 2 4
Tough metals formed cold. C.W. Phillips (chart) ... Aug. 2 95

Collets – 24-in.-ID collet has 12 sections ... Mar. 29 94

Columbium – 1965 outlook – Technical outlook: materials (report) ... Jan. 18 148

Colvin, Fred H. 1867-1965 ... Dec. 20 66

Comparators – Comparator guides a drill-press ... Mar. 29 85

**Compressed Air**
Higher pressure air for tools? ... Apr. 26 70
Stainless pad keeps air pure. S. Clark (PI) ... Feb. 15 108

**Computers**
ADE – computer designs presses. Babcock & Ingmire ... Nov. 22 102
AMP: from design to manufacturing in minutes (MR) ... Nov. 8 3
APT-less contouring tapes? S.H. Chasen ... July 5 69
Automation speeds flaw detection in x-rays (MR) ... Feb. 1 3
CAD saves programming time for machining tape (MR) ... June 21 3
Check rein on computers – 'real-time data processing' and 'management by exception' J.E. Sandford ... Sept. 27 67
Computer conversation – Rohr Corp. "Data-Phone" system (T) ... Jan. 18 97
Computer reads weld x-rays. Szabo & Eppler ... Aug. 16 86
Computer speeds materials flow at IBM plant ... Nov. 8 81
Computer turns two-dimensional drawings into 3-D (MR) ... June 7 4
Device transmits tracings direct to digital computer (MR) ... June 7 3
Digital controls on press hold closer tolerances (MR) ... Oct. 11 3
Digital readout simplifies hardness testing (MR) ... Sept. 27 3
Finding new jobs for APT. Fein & Kreh ... May 10 72
Ford – manufacturing today 2. Computer tests transmissions ... Dec. 20 83
Gleason's new gusto – 'store parts instead of machines'. A. Ashburn & others ... Sept. 27 75
'How to succeed with NC' – highlights from NCS Chicago meeting. R.L. Hatschek ... May 10 76
1965 outlook – Technical outlook: manufacturing control (report) ... Jan. 18 151
Operation sheets from a computer ... Nov. 8 90
Proposal: a 'computer gage' ... June 7 122
Shop cuts NC programming time with SNAP (Simplified Numerical Automatic Programmer). Philip Kronzer ... Mar. 1 39
Simulator aids programming ... July 19 91
'Wire service' programs NC. Nils Olesten ... May 10 86

**Contour Machining**
APT-less contouring tapes? S.H. Chasen ... July 5 69
Cam control cuts contouring costs. George DeGroat ... Sept. 27 71

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

Contour NC at $8000 (T) — Mar. 29 63
Costs cut on path control – contouring NC system with separate interpolation. R.L. Hatschek — Mar. 29 77
Doubling Kellering serves up almost twofold flap tracks (MR) — Mar. 1 4
Five-tool vertical contouring for turbine nozzle — Feb. 15 72
New band machining features: tracer and feed controls (MR) — Sept. 13 4
Optics caliper Saturn's rings. E.V. Mades — July 5 73
Precision chucker with NC does contouring work (MR) — Sept. 13 3
Simultaneous tracer-controlled cuts machine the contours of forged steel track rollers (cover) — Oct. 11 1
Those conflicting surface specs. Miller & Lash — Apr. 12 72
3-axis contouring minus interpolating from Bendix (MR) — Mar. 29 3
Tracing device replaces templets. E.J. Sass — Aug. 16 94
Two boosts for Saturn –2: NC contouring with a punchpress. Gary Neher — June 7 112

**Coolants** (see **Cutting Fluids**)

**Copper**
Brazing a two-mile-long pipe – Stanford University's linear accelerator. George DeGroat — Apr. 12 65
Cadmium-bearing copper versus silver cuts stock for radiators (MR) — Feb. 1 4
Clad fins for Al cores solder better (MR) — Feb. 1 4
Copper alloys making strong showing as "new" materials for automotive market (T) — Jan. 18 95
Copper analysis by controlled-heat arc (MR) — Aug. 16 3
Dies punch tiny circuit boards. Rupert LeGrand — July 19 94
New copper alloy for brake lines (T) — Nov. 22 27
No margin for error – manufacturing Klystron transmitter tube. George DeGroat — Oct. 25 92
Oxidizing steel saves scrap metal, cleans up junk (MR) — Aug. 30 3
Rings control welding heat on Titan III rocket engine frame. W.G. Smith Jr. — June 7 114
A stockpile is not a toy (ed) — Dec. 6 83

**Corrosion**
Aluminum alloys protected against stress-corrosion (MR) — July 19 4
Potassium salt bath descales at 400-425 F (MR) — Nov. 8 3
Protecting aluminum alloys (T) — Aug. 2 43
Ultrasonic corrosion inspection (T) — Sept. 27 29

**Cost Accounting**
The cost of machinability. G.B. Troup (report) (charts & tables) — Apr. 12-79-86
Relate costs to machinability for grades of steel (MR) — Apr. 12 4
Total cost a new defense guideline (T) — May 10 51
Watch those variable costs! S.K. Wood (charts & tables) — Feb. 15 80
When 'cost effectiveness' starts (ed) — Apr. 12 63

Counter – Hand wheel turn counter. C. McLaughlin (PI) — Aug. 16 118

**Counterbores and Countersinks**
Countersunk holes are smooth. J. Schmidt (PI) — Dec. 6 123
Depth mike measures countersink diameter. H. Koslow (PI) — Apr. 12 99
Punch reverses countersinks. A. Pippi (PI) — Jan. 18 166
Reducing a rod's diameter. T. Trail (PI) — Mar. 1 75
Special tool removes burrs. J. Waller (PI) — Jan. 4 79
Standardized NC cutting tools. Alan Baker (report) (tables) — June 21-115-122

**Cut-off**
Cutoff tube keeps spinning. H. Koslow (PI) — Mar. 15 193
Grooved cutoff tool stays free of chips. A. Telford (PI) — Apr. 26 107
Round shafts remain steady during cutoff in vise. R. Phillip (PI) — Oct. 25 127
Tubing cutoff aid. H. Gifford (PI) — June 21 136

**Cutting Fluids and Coolants**
Chemical coolant cuts drilling time 88% (MR) — Sept. 27 4
Cutting fluid ups drill life as much as 600% (MR) — Apr. 26 3
For a cooler cutting tool put the vapor coolant at the top of the cutting tool. H. J. Mote — Aug. 30 77
Gundrill helps cool Agena. Gus Dabringhaus — Feb. 1 61
Pulsating flow flushes out drill chips better (MR) — Oct. 11 4
Soluble-oil central system more accurate (MR) — Jan. 4 4
Soluble oil takes to the pipe — Jan. 18 122
Sticky weld problem solved with wheel cooling with liquid nitrogen (MR) — Apr. 12 3
Water-based grinding fluids (T) — Mar. 15 6
Whiting Corp. bets a million on NC – mist cooling boosts efficiency. E.E. Bergman — Nov. 22 106
Wire-drawing coolant improves with age — Nov. 8 92

**Cutting Tools**
AM survey shows: machine tool buying to ride high through '66. E.M. Stecher (report) (charts & tables) — Aug. 30-85-96
Atomic structure – clue to machining the 'newer' metals (MR) — Apr. 26 4
Backbone tie-band prevents jumping in multiple V-belt (MR) — Oct. 25 4
Bell signals end of cut. R. Lemp (PI) — May 10 116
Bevel nibbler prepares edges for welding (MR) — Jan. 18 3
Big pipe cut in 'small' lathe. R. Logan (PI) — Nov. 8 114
Bits rotate in unique milling tool — Mar. 15 99
Brass disk clasps carbides loosely (MR) — Apr. 12 3
Carbide cuts without coolant. A.P. Goeppert — Oct. 11 114
Carbide inserts cut faster with less hp (HR) — Oct. 11 3
Ceramic cutting tools (MR) — Feb. 1 4
Cintimatic goes horizontal — July 5 88
CEM (controlled energy machining) – for tougher metals, less hp? R.F. Rieger — Apr. 26 65
Cutter lengths pre-set with new adapter and holders (MR) — Apr. 26 3
Cutting works better than grinding on tough alloy (MR) — Nov. 22 4
8-1-1 titanium isn't so hard to work (MR) — May 10 3
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines — Mar. 15-109-124
2. Loaders and unloaders — Oct. 25-103-118
For a cooler cutting tool put the vapor coolant at the tip of the cutting tool. H.J. Mote — Aug. 30 77
Guideline for delicate cuts. M. Downs (PI) — Feb. 1 91
Horizontal-spindle NC machine has an optional rotary indexing table (cover) — July 5 1
Interlocking cutters have unusual design. J. Waller (PI) — Feb. 1 91
Machinability and the atom (T) — Apr. 26 57
Machines team up to do job. F. Kyle (PI) — Apr. 26 108
Machining not aided by induced vibration (MR) — Aug. 2 4
Milling deep slots with thin cutters. C. McLaughlin (PI) — Dec. 6 123
1965 outlook – Technical outlook (report) — Jan. 18 138
Optics caliper Saturn's rings. E.V. Mades — July 5 73
Plastics parts – machined instead of cast (MR) — Aug. 2 4
Single stroke puts two notches in tubes. J. Waller (PI) — Oct. 25 127
Slash tooling cost for gang milling by mating cutters in a hurry – Springfield Armory. J. R. Nalwalk — Apr. 12 71
Standardized NC cutting tools. Alan Baker (report) (tables) — June 21-115-122
Taking heavy cuts with ceramics. Harold Smith — May 24 82
Thread cutting on the lathe, 1,2. F.C. Fehely (Ref. Bk. Sheets) — May 10 107
Two cuts make square hole. F. Rush (PI) — Mar. 29 103

**Cylinders**
Advanced cylinder extrusion (T) — Apr. 12 53
Bore peening finishes cylinders – 'bearingize' process. D.R. Dorff — Jan. 4 66
How die cushions work. J. Hoenig — Jan. 4 59
Quick air-cylinder repair. R. Isetts (PI) — June 21 136
Simplify and plate removal. J. Waller (PI) — Mar. 29 104

Czechoslovakia – Brno's 'top ten' machine tools. F.H. Baer — Nov. 8 91

## D

**Data Processing** (see **Computers**)

**Deburring**
Burrs come off taps fast. F. Rush (PI) — May 24 113
Centrifuge spins burrs away – 'Harperizer' finishing machine. J.E. Sandford (table) — Mar. 29 73
Electrochemical machining of 12 rods at 2 stations (MR) — May 24 4
Slurry finishes like part-fitting grinding wheel (MR) — Apr. 12 4
Threaded bushings for aircraft are prepared for high-speed deburring (cover) — Mar. 29 1
Tool removes scraping burrs. F. Rush (PI) — Feb. 1 91
Vibrator finishing of complex parts. George DeGroat — May 24 80
Wire brush deburrs and polishes. P. Hennig (PI) — June 21 135

**Degreasing** (see **Cleaning**)

**Depreciation**
AM surveys shows: machine tool buying to ride high through '66 – expansion takes more than 65% of new tools. E.M. Stecher (report) (charts & tables) — Aug. 30-85-96
Depreciation revisions give business a tax break — Mar. 15 108
Gleason's new gusto – everything from small mills to NC centers. A. Ashburn & others — Sept. 27 79
The phantom and the formula (ed) — Nov. 8 77
Repair the roof while the sun shines — Oct. 25 87

**Design**
ADE – computer designs presses. Babcock & Ingmire — Nov. 22 102
German machine tool builders told design changes are needed (T) — June 7 43
Plated plastics: pro and con — June 7 124

**Diamonds, Industrial**
Diamond inserts solve a grinding problem — Mar. 1 47
Diamond wheel with porous bond grinds steel-carbide (MR) — Apr. 26 3
It's too costly not to test diamond wheels — Apr. 26 77
Reverse angle tip doubles tool life — Apr. 26 69

**Die Casting**
Die-cast aluminum motor frames – first in U.S. (MR) — May 24 4
Self-tapping screws for diecastings, 1 & 2. Harvey Phipard (Ref. Bk. Sheets) (tables) — Feb. 1 83

**Die Casting** (see also **Casting**)

**Dies**
All-NC die goes to press at Olivetti. Caja & Garetti — Mar. 15 92
Aluminum die forgings (Ref. Bk. Sheet) (table) — Dec. 6 117
Automatic molding at work. L.V. Stranne — Aug. 16 88
Automatic part pick-off for progressive die. C. McLaughlin (PI) — Dec. 20 93
Carbide inserts up die life 10:1 — Jan. 18 120
Change dies in 90 seconds – 'Die-Namic' process — Mar. 29 91
Chuck makes piercing die. H. Koslow (PI) — Feb. 1 91
Combining EDM and Minnie Dies saves 1/3 in costs (MR) — June 7 3
Die layout simplified. C. Kratz (PI) — Jan. 4 80
Die manipulator opens like a clam — Aug. 2 92
Dies punch tiny circuit boards. Rupert Le Grand — July 19 94
EDM replaces diamond grinding for carbide dies (MR) — Aug. 2 4
Fiberglass dies speed forming of large metal sheets (MR) — Sept. 13 4
For faster die changing try standardized die parts. Rupert Le Grand — Oct. 25 89
Ford – manufacturing today. 1. How Ford makes dies with NC — Dec. 20 80
How die cushions work. J. Hoenig — Jan. 4 59
New York T & D firm branches out in South — Dec. 6 167
No hand work for producing dies at Olivetti (MR) — Mar. 15 3
"Poly" dies cut tooling costs on press brakes (MR) — Jan. 4 3
Press brake dies made of 'rubber'. Rupert Le Grand — Jan. 4 53
Progressive cropping die. F. Strasser (PI) — July 5 110
Punching deep-drawn shells. M.J. Goldstein — Dec. 20 61
Stampers' enemy: slug pulling. P.A. Smith — Nov. 22 87
Templet aids die setup. R. Isetts (PI) — Aug. 16 117
Transfer dies cut scrap loss (charts) — June 7 120

**Dimensioning** (see **Drafting**)

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

Dimpling – Ram-coin dimpling (Ref. Bk. Sheet) ... June 21 125

**Dowels**
Dowel pin aids brake setup. M. Berman (PI) ... Feb. 15 108
Removing pins and bushings from blind holes. G. Smith (PI) ... Aug. 2 117

**Drafting**
Computer turns two-dimensional drawings into 3-D (MR) ... June 7 4
Reverse-curve layouts (Ref. Bk. Sheet) ... June 7 141

**Drawing** (see **Stamping**)

**Drilling**
Brinkmanship in gundrilling. Charles Emerson ... Feb. 15 76
Center column machine gets flexible ... Mar. 1 46
Chemical coolant cuts drilling time 88% (MR) ... Sept. 27 4
Collars program drill depth. C. McLaughlin (PI) ... May 24 113
Comparator guides a drillpress ... Mar. 29 85
Cross-drilling jib. D. Kimberling (PI) ... Apr. 12 100
Drill mounts on lathe. L. Lyons (PI) ... July 19 122
Drilling titanium alloys 1, 2 (Ref. 3k. Sheets) (tables) ... Dec. 20 87
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines 2. Loaders and unloaders ... Mar. 15-109-124 Oct. 25-103-118
Fine feed on drill press. C. McLaughlin (PI) ... Sept. 27 96
Four through-flute holes in a 1-in. drill (MR) ... July 19 4
'Gatling gun' controls drilling. Ed Addeo ... Jan. 4 54
Gundrill helps cool Agena. Gus Dabringhaus ... Feb. 1 61
Gundrilling small, deep holes up to 15½-in. long in a rocket nozzle (cover) ... Feb. 1 1
Hinge aids drilling safety. A. Pippi (PI) ... Apr. 26 108
Movable V-block for drilling. J. Schmidt (PI) ... Dec. 20 94
New angles in drilling – manufacturing a TV antenna ... June 21 112
Pins under table locate for repeat drilling (MR) ... Mar. 29 4
Power fed tail stock. K. Gupta (PI) ... Aug. 16 118
Pulsating flow flushes out drill chips better (MR) ... Oct. 14 4
Radial drills run faster. C. McLaughlin (PI) ... July 5 109
Removing broken taps, drills. S. Clark (PI) ... Aug. 16 118
Standardized NC cutting tools. Alan Baker (report) (tables) ... June 21-115-122
Stone makes odd-size drills. R. Jagen (PI) ... Oct. 25 127
Swivel fixture speeds drilling. F. Rush (PI) ... Jan. 4 79
Tool support and depth gage. R. Hill (PI) ... Sept. 27 95
Turret teams with multiple drill head. H. Gifford (PI) ... May 24 113
Vise plate for drilling. F. Accurso (PI) ... Dec. 20 94

**Drives**
Non-fixed feed on dieing machines with new cam drive (MR) ... Apr. 12 4
Simple drive speeds grinding. J. Waller (PI) ... Aug. 30 104

## E

**Education** (see **Training**)

**Electrical and Electronic Manufacturing**
Automatic molding at work. L.V. Stranne ... Aug. 16 88
Carbide inserts up die life 10:1 ... Jan. 18 120
Dies punch tiny circuit boards. Rupert Le Grand ... July 19 94
Fast test for spotwelds. D.F. Wetzel ... June 21 114
Making a light frame rigid – Xerox Corp.'s desk-top copier ... May 10 81
Multi-plate silver-zinc battery (T) ... May 24 59
New angles in drilling – manufacturing a TV antenna ... June 21 112
No margin for error – manufacture of Klystron transmitter tube. George DeGroat ... Oct. 25 92
Reverse angle tip doubles tool life at Singer's Power Tool Div. ... Apr. 26 69
Third generation NC makes debut – Westinghouse Forum ... May 10 80

**Electrical Machining**
Brass wire takes the place of a fixed electrode in EDM slotting of turbine rotor (cover) ... Nov. 8 1
Colored steel is produced electrolytically ... July 19 3
Combining EDM and Minnie Dies saves 1/3 in costs (MR) ... June 7 3
Critical friction relieved by diffusion tubes (MR) ... June 21 3
Electric current cuts metal wear ... Jan. 18 121
EDM cuts small holes with fine tubing. C. Frank (PI) ... Aug. 16 117
EDM cuts some 'impossibles'. Kauffman & Schlesselman ... Dec. 20 68
EDM potential untapped: Ford, GM men say ... May 24 73
EDM press forms auto trim dies (MR) ... June 7 4
EDM replaces diamond grinding for carbide dies (MR) ... Aug. 2 4
EDM stock removal rates can be boosted (T) ... July 19 19
EDMing with a wire. Charles Emerson ... Nov. 8 79
Electrochemical machining enhances properties of metals (MR) ... Aug. 30 4
Electrolytic heat treating process for thin parts (MR) ... May 24 3
Electrolytic honing (T) ... Aug. 30 19
Graphite electrodes machined with abrasive master (MR) ... June 21 3
Graphite wheels form carbide electrochemically (MR) ... Aug. 16 3
One-shot powder metal parts. George DeGroat ... Oct. 11 107
Oxide wheels go conductive ... Mar. 15 107
Plastic cards played into console direct welding line (MR) ... Mar. 1 3
Tool Show – EDM shares the limelight ... Apr. 12 74
Vapor coating. J.E. Sandford (report) ... Mar. 1-51-66

**Electroforming**
How to electroform mirrors. John Legnard ... Mar. 1 44
"Investment" electroforming turns out high-strength parts with repeatable accuracy. Pichel & Hasselman ... Jan. 4 56
Nickel parts are the products of "investment" electroforming (MR) ... Jan. 4 4
One step in the electroforming of a petal used in an aerospace antenna (cover) ... Jan. 4 1

**Electrolytic machining** (see **Electrical machining**)

**Electron Beam**
Electron-beam cutter to project image of work (MR) ... July 5 4
Electron beam goes on the line. George DeGroat ... Apr. 26 75
E-B 'still' forms sheet of exotic metals (MR) ... Aug. 16 4
'Hollow Cathode Discharge' – a new source of heat? (MR) ... Feb. 1 3
Electron-beam welding. 1 & 2 (Ref. Bk. Sheets) (table) ... Mar. 29 97

**Electron Beam** (see also **Electrical Machining**)

**Electroplating** (see **Plating**)

**Embossing** (see **Stamping**)

**Engineering drawings** (see **Drafting**)

**Engines** (see **Automobile Manufacturing** or **Aerospace Manufacturing**)

**Etching** (see **Chemical milling**)

EEMO (European Exhibition of Machine Tools) – Builders battle at Brussels. Anderson Ashburn ... Sept. 27 60

**Explosives forming** (see **Forming**)

**Exports**
Canada-U.S. "free trade" – duty windfall for automakers (T) ... Feb. 1 47
East German machine tools export offensive (T) ... Mar. 29 67
GE credit for exports (T) ... Nov. 22 41
Japan, Italy and Canada eye US markets – Westec show ... Mar. 15 99
NMTBA's attitude on East-West trade ... Nov. 22 19
Record trade predicted for '65 (T) ... July 19 39
Red Bloc markets for US industrial goods are Poland and Rumania (T) ... Sept. 27 21
The role of metalworking in the balance of payments. J.J. Dwyer Jr. (report) (charts & tables) ... May 24-85-100
Soviet autos for Australia (T) ... July 19 39
Time to decide on priority (ed) ... Dec. 20 59

**Extruding**
Advanced cylinder extrusion (T) ... Apr. 12 53
Aluminum extrusions, 1 & 2 (Ref. Bk. Sheets) (tables) ... Feb. 15 99
Three-blow header extrudes and heads with two dies (MR) ... Apr. 26 3

## F

**Fasteners**
Japanese fastener show (T) ... Sept. 13 69
Low-melting-point alloys make boltless connections (MR) ... Dec. 20 3
MBT tank: metric, inch compromise ... June 21 102
New tighten-to-loosen fastener (MR) ... Dec. 20 3
Warm-forming of heading wire makes fasteners (MR) ... Sept. 27 3
When a fastener doesn't fasten. W.A. Toepel ... Jan. 4 63

**Feeding Devices**
All out for adaptive controls – SAE's West Coast meeting ... Oct. 25 96
CEM (controlled energy machining) – for tougher metals, less hp? R.F. Rieger ... Apr. 26 65
Feed jogging from the floor with control device (MR) ... Mar. 29 4
Non-fixed feed on dieing machines with new cam drive (MR) ... Apr. 12 4
Powered push ram feeds parts to belt grinder (MR) ... Mar. 29 4
Stock straighteners for presses, 1, 2. E.R. Enberg (Ref. Bk. Sheets) ... Oct. 25 121
Strip glides into press. A. Pippi (PI) ... June 7 147

**Fibers**
5000-foot-long metallic filaments (T) ... Feb. 15 61
Metallic whiskers will, in fact, denote strength (MR) ... Feb. 15 3
Of whiskers and filaments (T) ... Feb. 15 61

**Filament Winding**
Filament winder for big booster (T) ... Aug. 2 37
5000-foot-long metallic filaments (T) ... Feb. 15 61
Long metal filament is flexible enough for textile weaving (MR) ... Feb. 15 4
1965 outlook – Technical outlook: materials (report) ... Jan. 18 147
Of whiskers and filaments (T) ... Feb. 15 61

Filtration – Stainless pad keeps air pure. S. Clark (PI) ... Feb. 15 108

**Finishing (Barrel and Vibratory)**
Bore peening finishes cylinders – 'bearingize' process. D.R. Dorff ... Jan. 4 66
Centrifuge spins burrs away – 'Harperizer' finishing machine. J.E. Sandford (table) ... Mar. 29 73
'Chemidize' – new aluminum surface protector (MR) ... Nov. 22 3
Fast defrosing saves up to 90% of solvent fumes (MR) ... Sept. 27 4
Faster nitriding uses activator for easy diffusion (MR) ... Aug. 16 3
High finishes at high speeds. George DeGroat ... Dec. 20 64
High-speed orbiting tumbles metal off bearings (MR) ... Mar. 1 4
1965 outlook – Tecnical outlook: cleaning and finishing (report) ... Jan. 18 150
Router, sander cut radiusing time 75% ... Mar. 29 92
Selecting a prepaint line. S. Spring (table) ... June 21 107
The sign language of surface finish: G.A. Roberts ... Mar. 29 78
Slurry finishes like part-fitting grinding wheel (MR) ... Apr. 12 4
Taking heavy cuts with ceramics—team-up of chuckers and ceramics. Harold Smith ... May 24 82
Those conflicting surface specs. Miller & Lash ... Apr. 12 72
Tool Show – finishing shares the limelight ... Apr. 12 74
Vibratory finishing of complex parts. George DeGroat ... May 24 80

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

Fits – Shrink-fit bearings for variable wings for Boeing's proposed SST. Ray Bloomberg ... Feb. 1 64

**Fixtures** (see **Jigs and Fixtures**)

Flame Cutting – Portable 'Curvator' flame cuts intricate contours (MR) ... Nov. 22 3

**Flame Hardening** (see **Heat treatment**)

**Forging**
Aerospace firms backing colossal forging press (T) ... Feb. 1 49
Aluminum car wheels hold up under an extra ton (MR) ... Feb. 1 3
Aluminum die forgings (Ref. Bk. Sheets) (table) ... Dec. 6 117
Automated forging uses Impacter and Unimate robot (MR) ... Nov. 22 3
Billet heater solves cold core problem (MR) ... Mar. 29 3
Machine forges 600 spark plugs per minute (MR) ... Nov. 8 4
Sonic press for forging, forming now a possibility. Dr. L. Balamuth ... Jan. 18 118
Quivering flywheel for forming energy? (MR) ... Jan. 18 4
Upset forgings (Ref. Bk. Sheets) (tables) 1,2 Apr. 26-97, 3 ... June 7 143

**Forming**
Ausforging improves metal properties (MR) ... Dec. 20 3
Automatic molding at work. L.V. Stranne ... Aug. 16 88
Bigger coils form elbows magnetically (MR) ... Jan. 4 3
Brake shoes formed and welded in assembly unit (MR) ... Jan. 18 3
Building-blocks of capacitor banks hike forming power (MR) ... Apr. 12 3
Cold forming titanium sheet. Berkland & Alarie ... Jan. 18 112
Convair combines new aluminum-forming methods ... Apr. 12 171
Die-cast aluminum motor frames – first in US (MR) ... May 24 4
Digital controls on press hold close tolerances (MR) ... Oct. 11 3
Drawing limits for aerospace alloys (Ref. Bk. Sheet) (table) ... July 5 101
Electron-beam 'still' forms sheet of exotic metals (MR) ... Aug. 16 4
Fiberglass dies speed forming of large metal sheets (MR) ... Sept. 13 4
Foam bulging in eyelet shells forms containers (MR) ... Nov. 22 4
Forming a plastic car in 15 minutes – Cycolac ABS sports car ... May 10 88
Four-slide halves separator costs ... Apr. 12 77
Fourslide machine is tooled up to form small brass parts from flat stock (cover) ... Aug. 2 1
Hammer forming a laminate for Minuteman missile. Bjork & Foster ... Feb. 15 74
High-explosive bulging also follows the forming rules (MR) ... July 19 4
Hot press does creep and draw forming (MR) ... Aug. 16 3
How to work 8-1-1 titanium. George DeGroat ... May 10 67
Hydraulic forming shapes finished metal stampings (MR) ... Dec. 6 3
Hydraulic press forms at up to 300,000 psi (MR) ... June 21 3
Hydraulic system combines high and low pressure (MR) ... Feb. 15 3
Limits for tube bulging (Ref. Bk. Sheet) (table) ... July 19 115
Machine forges 600 spark plugs per minute (MR) ... Nov. 8 4
Machining not aided by induced vibration (MR) ... Aug. 2 4
Magnetic forming in a big way – 40 capacitors bend large elbows. Larrimer & Hinks ... Jan. 4 47
Metal molds for rubber parts. D.B. Bett ... June 21 103
Metal powder parts are fabricated by 'spark sintering' (MR) ... Aug. 30 3
Molds reduce deflashing time. D. Bett (PI) ... June 21 136
1965 outlook – Technical outlook: forming (report) ... Jan. 18 140
Oil aids cold forming (table) ... July 19 88
One-piece furnace casings produced (MR) ... Mar. 1 4
Pendulum tool forms ends of tubes. J. Waller (PI) ... July 5 109
Plasma arc spraying forms resistant cermet heaters (MR) ... Sept. 13 4
Process combines drawing with hydraulic forming (MR) ... Sept. 13 3
Quivering flywheel for forming energy? (MR) ... Jan. 18 4
Roll-form bellows from standard sheet-metal tube (MR) ... July 5 4
SAE's West Coast meeting – advances in joining aerospace metals ... Oct. 25 96
Single-stroke cold header forms 36,000 pc./hr (MR) ... Oct. 25 4
60-ton press – a special for rule dies (MR) ... Mar. 29 3
Sonic press for forging, forming now a possibility. Dr. L. Balamuth ... Jan. 18 118
Spinning limits for aerospace alloys (Ref. Bk. Sheet) (table) ... July 19 113
Three-blow header extrudes and heads with two dies (MR) ... Apr. 26 3
Tooling a fourslide. C.J. Labonack. 1, Aug. 2-87, 2, Aug. 16-90, 3, Aug. 30-80, 4, Sept. 27-56, 5, Oct. 11-118, 6, Oct. 25-97, 7, Nov, 8-86, 8, ... Dec. 6 90
Tough metals are formed without heat (MR) ... Aug. 2 4
Tough metals formed-cold. C.W. Phillips (chart) ... Aug. 2 95
Tungsten tubing formed from metal powders (MR) ... Aug. 30 4
Upsetting, coining bulged tube – Advanced Hydramold Process. C.R. Wallick ... June 21 96
Vacuum-forming for sheet metal – 78% Zn, 22% Al alloy sheet superplasticity study ... June 7 116
Warm-forming of heading wire makes fasteners (MR) ... Sept. 27 3
Wire drawing gets an assist from ultrasonics (MR) ... Oct. 25 3

**Forming** (see also **High-Energy Rate Forming, Stamping**)

**Foundry** (see **Castings**)

## G

**Gaging**
Automatic pin, piston gaging in automotive industry ... Nov. 22 94
Automatic size controls for grinding. James Sandford ... June 21 111
Back-of-machine gage adjustments made from front (MR) ... Mar. 15 3
Collar gages boring bar. R. Hill (PI) ... Mar. 29 104
Fast check on ID's. R. Dressler (PI) ... July 5 109
Feedback gage corrects for tool wear (MR) ... Oct. 11 3
Feeler gage for tight spots. J. Butler (PI) ... Dec. 6 124
Gage block guides hand drill for making metal cutouts. A. Vena (PI) ... Oct. 25 128
Gage blocks. H.J. Mote (report) (tables) ... Aug. 16-97-108
Gage for cutoff saw. F. Rush (PI) ... June 7 147
Gage for sharp corners. E. Goulet (PI) ... Sept. 27 96
Gage sets lathe tools accurately. M. Day (PI) ... Mar. 29 103
Guide to tracer and in-process gaging equipment. Machine Tool Show; Production Engineering Show; International Machinery Show ... Sept. 13 169
High compression stresses gaged in Harperized blocks (MR) ... Maw 29 3
Hole gage levels work support blade. H. Kotowski (PI) ... Jan. 18 165
How to gage a gage block. G.D. Webber (table) ... July 5 83
Milling machine depth gage. D. Kimberling (PI) ... Dec. 6 123
Parallel made for depth gage. D. Kimberling (PI) ... Sept. 27 95
Proposal: a 'computer gage' ... June 7 122
Roller arm gages neck depth. D. Rowland (PI) ... Aug. 30 104
Sensing gage reads size of stock removal (MR) ... May 24 4
Simple gage checks taper. H. Koslow (PI) ... Feb. 15 107
Tool gage saves time. R. Hill (PI) ... May 24 114
Tools set to exact height M.W. Day (PI) ... June 7 147

**Gaging** (see also **Inspection** and **Measuring**)

**Gearing**
Constant-energy gears balance flying shear (MR) ... Aug. 16 4
Regearing for volume output. George DeGroat ... June 21 100

**Gearing** (see also **Hobbing**)

Germany – East German lease-or-else tooling ... Jan. 18 111

Glass – Glass branches out (T) ... Dec. 20 41
Glass fibers – Fiberglass dies speed forming of large metal sheets (MR) ... Sept. 13 4

**Gold**
Gold electroplated directly on molybdenum (MR) ... Sept. 13 3
Gold electroplate is both bright and ductile (MR) ... Aug. 30 3

**Graphite**
Graphite electrodes machines with abrasive master (MR) ... June 21 3
Graphite wheels form carbide electrochemically (MR) ... Aug. 16 3
Graphite yarn is stronger than steel filament (MR) ... Dec. 6 3
New insulating graphite for equipment support (MR) ... July 5 4
Vapor-depositing pyrolitic graphite ... Apr. 26 78

**Grinding**
Automatic size controls for grinding. James Sandford ... June 21 111
Bonded diamond wheel for formed grinding carbides (MR) ... Sept. 13 4
Clamp speeds die grinding. A. Pippi (PI) ... July 5 110
Diamond grinding without loading ... May 24 84
Diamond inserts solve a grinding problem ... Mar. 1 47
Diamond wheel quantity purchase plan revised (T) ... Aug. 2 23
Die punch grinding fixture. D. Kimberling (PI) ... Nov. 22 139
80-inch belts are applied to plunge grinder (MR) ... May 24 3
Electrolytic grinding – oxide wheels go conductive ... Mar. 15 107
Fixture is water cooled. J. Waller (PI) ... Feb. 15 107
Fixture made from channel iron. F. Rush (PI) ... Nov. 22 140
Graphite wheels form carbide electrochemically (MR) ... Aug. 16 3
The great abrasive skirmish (ed) ... Apr. 26 63
Grinding ball bearing centers. H. Gifford (PI) ... May 10 116
It's too costly not to test deiamond wheels ... Apr. 26 77
Jig grinder takes on any angle ... Nov. 22 89
Keeping oil mist under wraps. L.E. Geyer ... Aug. 30 84
Machining tin-alloyed iron. J.H. Sperman ... July 19 86
Make the grinder fit the work ... Feb. 15 78
Nonstop chucking speeds internal grinding (MR) ... Nov. 8 3
NC sizing unit controls grinding wheel advance (MR) ... Sept. 27 3
Piano wire for jaw grinding. H. Koslow (PI) ... May 10 115
Powered push ram feeds parts to belt grinder (MR) ... Mar. 29 4
Precision grinding of big parts made easy. W. Keller (PI) ... Oct. 11 147
Pulse motors control feed of wheel grinder (MR) ... May 24 3
Simple drive speeds grinding. J. Waller (PI) ... Aug. 30 104
Slash tooling cost for gang milling by mating cutters in a hurry – Springfield Armory. J.R. Nalwalk ... Apr. 12 71
Spindles are nondeflecting on centerless grinder (MR) ... Apr. 26 4
That controversial Norton plan – direct factory-to-customer selling ... Mar. 15 91
Vibration-free grinding. C.W. Finkl ... Sept. 27 53
Water-based grinding fluids (T) ... Mar. 15 69
Wheelgrinding hits the rails – Japanese setup for trueing railway wheels. Charles Cohen ... May 27 74

**Grooving**
Groove saves chamfering step. E. Goulet (PI) ... May 10 115
Grooves cut in steel shafts. H. Koslow (PI) ... June 21 135
Tool grooves, trepans, mills. J. Waller (PI) ... Apr. 26 107

**Guided Missiles** (see **Aerospace Mfg.**)

**Guns** (see **Ordnance Manufacturing**)

## H

**Hammers** (see **Forging**)

**Hardening** (see **Heat Treatment**)

Heading – Now it's warm heading. J.W. Keegan (table) ... Oct. 11 110

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

Heaters – Billet heater solves cold core problem (MR) ... Mar. 29 3

**Heating and Heat Treatment**
'Bracelet' brazing furnace for small spaces ... Dec. 20 63
Continuous heat-quench-draw boosts strength of steel rods ... Feb. 1 75
Electrolytic process for treating thin parts (MR) ... May 24 3
Furnace atmospheres. J.J. Dwyer Jr. (report) ( tables & flow diagrams) ... July 19-97-108
Hardenability of steels (Ref. Bk. Sheets) (charts & tables) 1 & 2 Aug. 16-109, 2 & 4 Aug. 30-97, 5 & 6 Sept. 27-85, 7 & 8 ... Oct. 11 139
Heat treat salvages work. B. Long Jr. (PI) ... Nov. 8 114
Load of steel castings is discharged from furnace that produces its own atmosphere (cover) ... July 19 1
A new machinability index. J.R. Ewell (charts) ... Dec. 20 72
1965 outlook – Technical outlook: heat treating (report) ... Jan. 18 152
Now it's warm heading. J.W. Keegan (table) ... Oct. 11 110
One-shot powder metal parts. George DeGroat ... Oct. 11 107
Predicting heat treat growth. Michalec & Sanchez (charts) ... Dec. 6 99
Radiant heat ups tensile of low carbon steel (MR) ... Jan. 18 3
Rings control welding heat on Titan III rocket engine frame. W.G. Smith Jr. ... June 7 114
Silver brazing pipe joints with infrared furnace (MR) ... June 21 4
Stress relieving Saturn's rings. Isaac Bensussen ... July 5 76
Vapor-depositing pyrolitic graphite ... Apr. 26 78
Vertical furnace brazes assembly of rings and disks for 2-mile linear accelerator (cover) ... Apr. 12 1
Welding heat-treated steels. Doty & Szekeres (report) (charts & tables) ... July 5-91-98

**High Energy Rate Forming**
CHEF (controlled high energy forge) machine is newest entry in HERF field (T) ... Apr. 12 47
New HERF research center (T) ... May 10 55

Hobbing – 'World's highest-capacity gear hobber' (T) ... Aug. 30 19

**Hoists** (see **Materials Handling**)

**Honeycomb**
Hi-temp composite heat shield (T) ... Mar. 29 65
Honeycomb and the F-111 (T) ... Nov. 22 39

**Honing**
Electrolytic honing (T) ... Aug. 30 19
Japanese machine 'straddle hones' two sides at once (MR) ... Dec. 6 4

**Hydraulic Equipment**
Bladder replaces mechanical expander ... Dec. 6 98
Deep draw forms shells in tandem dies (MR) ... Jan. 18 3
Hydraulic system combines high and low pressure (MR) ... Feb. 15 3
Piping kit is an 'erector-set' for hydraulics (MR) ... Mar. 29 4

## I

**Imports**
Boeing buys German-built tools (T) ... Mar. 15 75
Canada-U.S. "free trade" – duty windfall for automakers (T) ... Feb. 1 47
House-Senate Conference Committee kills move to raise tariffs on cast aluminum from Canada (T) ... Sept. 27 21
Japan, Italy and Canada eye US markets – Westec show ... Mar. 15 99
Machine tool buying to ride high through '66 – only 2% of spending for foreign machines. E.M. Stecher (report) (charts & tables) ... Aug. 30-85-96
NMTBA's attitude on East-West trade (T) ... Nov. 22 19
No curb on tungsten imports (T) ... Oct. 11 31
The role of metalworking in the balance of payments. J.J. Dwyer Jr. (report) (charts & tables) ... May 24-85-100
Sweden will admit most NC machine tool imports free of duty (T) ... Sept. 27 21

Indexing – Monitor checks indexing of two-jaw chuck (MR) ... Aug. 2 3

**Indicators**
Cone locates holes quickly. F. Fehely (PI) ... Sept. 27 96
Dial indicator turns all ways. L. Zirkle (PI) ... Dec. 6 124
Indicator for threaded holes. H. Koslow (PI) ... Oct. 25 127
Locator for indicator work. B. Kiernan (PI) ... Aug. 30 104

**Inspection**
Automatic assembly and inspection of automobile ballscrew assemblies (cover) ... Mar. 1 1
Automation speeds flaw detection in x-rays (MR) ... Feb. 1 3
Beam-of-light system to inspect delicate parts (MR) ... Dec. 6 3
Colorful blossoms mean defects to metal testers (MR) ... Oct. 11 3
Computer reads weld x-rays. Szabo & Eppler ... Aug. 16 86
Czech checker reads diameters easy as pi (MR) ... Mar. 1 3
Device measures surface finish on curved gear teeth (MR) ... May 10 3
Don't trust mike 'feel'. W.F. Conroy ... Mar. 1 49
Feedback gage corrects for tool wear (MR) ... Oct. 11 3
Hot rolled bars are inspected automatically (MR) ... Feb. 15 4
A laser checks out tools. R.G. Chamberlain ... Aug. 30 71
Layout and inspection time cut 40-50% (MR) ... Oct. 11 4
Metal stretcher is new deivice for cryogenic testing (MR) ... July 5 4
Micrometer checks inside tapers. B. Lechler (PI) ... Mar. 1 76
Moto-feeds mercury-arc projector (MR) ... Apr. 12 3
1965 outlook – Technical outlook: inspection and testing (report) ... Jan. 18 142
Numerical readout with portable ultrasonic tester (MR) ... Sept. 13 3
A primer on automatic assembly. Charles Emerson (report) ... Feb. 15-83-98
Proposal: a 'computer gage' ... June 7 122
Small and portable, non-electric device detects flaws (MR) ... Feb. 15 3
Special scope checks welds. F. Unger (PI) ... Nov. 22 140
Tape wiring checker also instructs (MR) ... May 24 4
Tool assembles and checks. F. Strasser (PI) ... Mar. 15 194
Ultrasonic corrosion inspection (T) ... Sept. 27 29
Ultrasonics now used to test for metal fatigue (MR) ... Dec. 20 4
Weld quality is monitored while welds are being made (MR) ... Oct. 25 3

**International Machinery Show**
The exhibitors and their booth locations ... Sept. 13 517
Guide to numerical control equipment ... Sept. 13 165
Guide to tracer and in-process gaging equipment ... Sept. 13 169
International Machinery Show in print ... Sept. 13 521
The Chicago shows ... Oct. 11 121
The other two (ed) ... Sept. 13 157
The real news about Chicago (ed) ... Oct. 11 105

Inventory – That controversial Norton plan – direct factory-to-customer selling ... Mar. 15 91

## J

**Jig Boring** (see **Boring**)

**Jig Grinding** (see **Grinding**)

**Jigs and Fixtures**
Adjustable tie bar. F. Adams (PI) ... Oct. 11 148
Assembly fixture runs both hot and cold (MR) ... Mar. 15 3
Change dies in 90 seconds – 'Die-Namic' process ... Mar. 29 91
Collars pressed on shafts. R. Phillip (PI) ... May 24 114
Cross-drilling jig. D. Kimberling (PI) ... Apr. 12 100
Cylinders held for welding. F. Rush (PI) ... Aug. 16 118
Die plates changed in an instant on new OBI press (MR) ... Mar. 29 4
Die punch grinding fixture. D. Kimberling (PI) ... Nov. 22 139
'Erector sets' cut tooling costs. Walter Dittmer ... July 5 71
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ... Mar. 15-109-124
2. Loaders and unloaders ... Oct. 25-103-118
Fixture adds bite to vise. J. Huber (PI) ... Oct. 11 148
Fixture clamps thinwall tubing. F. Rush (PI) ... Dec. 20 93
Fixture for ball cutting. R. Hill ... Aug. 2 118
Grinding fixture is water cooled. J. Waller (PI) ... Feb. 15 107
Grinding fixture made from channel iron F. Rush (PI) ... Nov. 22 140
Jig bends flat stock. F. Rush (PI) ... May 10 116
Lubricated jig lid design. F. Adams (PI) ... Nov. 8 114
Modular tooling for NC. Charles Emerson ... May 24 71
New jobs for magnetic chucks ... Mar. 15 95
Round shafts remain steady during cutoff in vise. R. Phillip (PI) ... Oct. 25 127
Swivel fixture speeds drilling. F. Rush (PI) ... Jan. 4 79
Tool assembles and checks. F. Strasser (PI) ... Mar. 15 194
Two boosts for Saturn – 1. Huge fixtures weld the S-IC. W.B. Edmiston ... June 7 109

**Job Shops**
NC in a job shop. L.A. Roth ... Nov. 22 108
Shop cuts NC programming time with SNAP (Simplified Numerical Automatic Programmer). Philip Kronzer ... Mar. 1 39

Joint Industrial Council – Formed ... Apr. 12 77

## K

**Keys and Keyways**
Cure for odd locking keyways. D. Wienss (PI) ... Oct. 25 127
Don't discard chuck key. J. Paulson (PI) ... Jan. 18 165
Keys pumped off flywheels. E. Wragg (PI) ... May 24 114
Pins make emergency key. H. Koslow (PI) ... Mar. 29 104

## L

**Labor**
About the new employment law ... July 5 90
Changes in ground rules covering the conduct of union organizers (T) ... June 7 31
Clean bill of health for automation – reports from NMTBA and NTDPMA ... Dec. 6 89
'Coordinated bargaining' (T) ... Nov. 22 23
Double-time for overtime – survey (T) ... May 24 61
Labor unions lose exemptions (T) ... June 21 29
Lifting rates for male workers, 1,2. Snook & Irvine (Ref. Bk. Sheets) (tables) ... Nov. 22 129
The many faces of employment (ed) ... Mar. 15 85
Minimum wage hike ? (T) ... July 19 27
New early retirement programs (T) ... Aug. 16 29
1965 outlook – What's happening to wages and prices (tables) (report) ... Jan. 18 134
NC today. R.L. Hatscheck (charts & tables) (report) ... Nov. 22-109-116
'Package loading' approach to average out the pay gains through the life of a contract (T) ... Dec. 6 31
'Preventive mediation' (T) ... July 19 27
The real news about automation – excerpts from article by C.E. Silberman in Fortune ... Mar. 15 101
Supreme Court upholds NLRB in fibreboard case (T) ... Jan. 4 29
A talk of two idiocies 1. The walking electrician 2. The shrinking contract (ed) ... Feb. 1 59
Unemployment compensation boost (T) ... Aug. 30 27
UAW and Big Three 'monopsony' (T) ... Aug. 2 31
Wage guideline rise in 1966? (T) ... Sept. 27 25
Walsh-Healey Act study (T) ... Sept. 13 45

Lapping – Aluminum lapping material (T) ... Jan. 4 33

**Lasers**
Focusing device brings laser closer to shop ... Feb. 1 74
Hologram shows object's 4 sides in one 'picture' (MR) ... Nov. 8 4
Laser breakthrough: focus device a laser can't break trhough – Remet Focusing System (MR) ... Feb. 1 3
A laser checks out tools. R.G. Chamberlain ... Aug. 30 71
Laser for standard meter measurement? (MR) ... Jan. 4 3

Laser interferometer – 1965 Machine Tool Show preview. Anderson Ashburn ... June 21 95
Laser welders are automated for micro-circuits (MR) ... Oct. 11 4
Laser welding – SAE's West Coast meeting ... Oct. 25 96
Production-line laser welder has direct viewer (MR) ... Nov. 22 3
Ultra-fine surface flaws measured with laser device (MR) ... Mar. 15 3
Westinghouse technique raises laser efficiency 50% (T) ... Oct. 25 25

**Lathes** (see **Turning**)

**Law**
About the new employment law ... July 5 90
Metal stockpile sales bill (T) ... Nov. 22 21
Supreme Court upholds NLRB in fibre-board case (T) ... Jan. 4 29
Tool changer litigation (T) ... Oct. 11 47
Walsh-Healey Act study (T) ... Sept. 13 45

**Layout**
Die layout simplified. C. Katz (PI) ... Jan. 4 80
Dual centerpunch aids layout. H. Campbell (PI) ... Mar. 1 76
Layour for injection molds. C. Bossmann (PI) ... Aug. 30 104
Layout and inspection time cut 40-50% (MR) ... Oct. 11 4
A primer on automatic assembly. Charles Emerson (report) ... Feb. 15-83-98
Reverse-curve layouts (Ref. Bk. Sheet) ... June 7 141
Setup reduces pin diameter. F. Zietowski (PI) ... Jan. 18 166
Tool for workpiece layout. J. Schmidt (PI) ... Oct. 25 128
Tool simplifies cam layout. M. Berman (PI) ... Mar. 1 76

Lead – 1965 outlook – Technical outlook: materials (report) ... Jan. 18 147

**Leasing of Machinery**
East German lease-or-else tooling ... Jan. 18 111
General Electric Credit Corp. offers "Banklease Plan" (T) ... June 7 27
Lease a blade carbides mill plate (MR) ... June 21 4

Levels – Hole gage levels work support blade. H. Kotowski (PI) ... Jan. 18 165

Lighting – GE's Lucalox lamp – "the most efficient source of white light yet developed" (T) ... Nov. 8 19

Lithium – 99.9999% pure, and it floats (T) ... July 19 37

**Lubrication**
Critical friction relived by diffusion lubes (MR) ... June 21 3
Iodine as a lubricant (T) ... Dec. 6 39
Keeping oil mist under wraps. L.E.Geyer ... Aug. 30 84
Lubricated jig lid design. F. Adams (PI) ... Nov. 8 114
New family of lubricants based on addition of iodine complexes (T) ... Nov. 22 19
Oil aids cold forming (table) ... July 19 88
Paint rollers oil stock. C.McLaughlin (PI) ... Jan. 18 166
Powder lubricants for high-speed gears and bearings (MR) ... Dec. 6 4

## M

**Machine Tool Show**
Sneak preview. Anderson Ashburn ... June 21 93
Pre-show activity shifts into high at Chicago's International Amphitheatre (cover) ... Aug. 30 1
More than just machine tools ... Aug. 30 74
Yes, but is it new? (ed) ... Sept. 13 157
The other two (ed) ... Sept. 13 157
The exhibitors and their booth loactions ... Sept. 13 159
Guide to numerical control equipment ... Sept. 13 165
Guide to tracer and in-process gaging equipment ... Sept. 13 169
Machine Tool Show in print ... Sept. 13 173
The Chicago shows ... Oct. 11 121
The real news about Chicago (ed) ... Oct. 11 105
Why the rush? (ed) ... Oct. 11 105

**Machine Tools**
AM survey shows: machine tool buying to ride high through '66. E.M. Stecher (report) (charts & tables) ... Aug. 30-85-96
Australia's international show (T) ... Aug. 16 41
Boeing buys German-built tools (T) ... Mar. 15 75
British industry jogged (T) ... July 5 31
Brno's 'top ten' machine tools. F.H. Baer ... Nov. 8 91
CEM (controlled energy machining) – for tougher metals, less hp? R.F. Rieger ... Apr. 26 65
The cost of machinability. G.B. Troup (report) (charts & tables) ... Apr. 12-79-86
Credit where it's due (ed) ... Mar. 29 71
DIPEC advisory panel meets (T) ... Aug. 16 41
EEMO (European Exhibition of Machine Tools) – Builders battle at Brussels. Anderson Ashburn ... Sept. 27 60
East German export offensive (T) ... Mar. 29 67
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ... Mar. 15-109-124
2. Loaders and unloaders ... Oct. 25-103-118
Fewer, better machine tools – Air Force looks to 1975 ( charts & tables) ... July 8 80
The 'final' factor (ed) ... Aug. 2 85
Gisholt offering machine tool financing (T) ... Oct. 11 27
Gleason's new gusto. A. Ashburn & others ... Sept. 27 75
Hassle over tape coding. R.L. Hatscheck ... Aug. 2 93
Higher pressure air for tools? ... Apr. 26 70
How to make special form tools. R. Jagen (PI) ... Nov. 8 113
How to work thermoplastics. V.A. Walker ... Sept. 27 73
Hydraulic-pump retooling. Fran Ridgway ... Mar. 29 86
International Machinery Show ... Sept. 13 517
The Chicago shows ... Oct. 11 121
Italy proposes law permitting up to five years state credti for 85% of the value of a machine tool (T) ... Mar. 29 63
Landis Tool stock offering (T) ... July 5 31
A laser checks out tools. R.G. Chamberlain ... Aug. 30 71
Leipzig's annual spring trade fair – Red tools shown. Richard Mikton ... Mar. 29 83
Leipzig Fair – Red Chinese tools draw crowds ... Apr. 26 68
LeMaire Machine Tool in financial trouble (T) ... Mar. 15 77
Machine Tool Show – pre-show activity shifts into high at Chicago's International Amphitheatre (cover) ... Aug. 30 1
Machine Tool Show: more than just machine tools ... Aug. 30 74
Machine Tool Show – 1965 ... Sept.13-159-260
The Chicago shows ... Oct. 11 121
Machining center built by Cincinnati Milling Machine Co. (T) ... Sept. 13 37
Metals Show in Print ... Oct. 11 151
Midwest survey – a note of optimism (T) ... Aug. 30 39
The millennium has not arrived (ed) ... Nov. 22 85
Modernization urged (T) ... May 24 55
Modular tooling for NC. Charles Emerson ... May 24 71
NMTBA: Machine tool orders and shipments Jan. 4-58, Feb. 15-79, Mar. 15-100, Apr. 12-78, May 10-80, June 7-122, July 5-82, Aug. 2-100, Sept. 13-61, Oct. 11-109, Nov. 8-80, ... Dec. 6 98
Navy yards to undergo five-year updating ... Apr. 12 78
New York T & D firm branches out in South ... Dec. 6 167
1965 Machine Tool Show – Julian Pease sees show as milestone (cover) ... June 21 1
1965 Machine Tool Show: sneak preview. Anderson Ashburn ... June 21 93
1965 outlook – machine builders to ship record volume (charts) (report) ... Jan. 18 130
1965 outlook – NMTBA: net new orders and shipments (tables) (report) ... Jan. 18 131
1965 outlook – world machine tool production and trade (charts & tables) (report) ... Jan. 18 132
1965 Tool Show
List of exhibitors ... Mar. 15-131-136
Technical program ... Mar. 15 137
Tool Show in print ... Mar. 15-138-188
1964 shipments were $1.2 billion (T) ... May 10 57
Orders were up 18% this year (T) ... Dec. 20 39
PCQ: spotting productivity change (report) (charts) ... June 7-129-138
The PCQ of productivity (ed) ... June 7 107
Precision Park goes to work ... Feb. 1 72
Production Engineering Show ... Sept. 13 389
The Chicago shows ... Oct. 11 121
The real news about Chicago (ed) ... Oct. 11 105
Relate costs to machinability for grades of steel (MR) ... Apr. 12 4
Remember the soaring '60's? (ed) ... Aug. 30 69
Reverse angle tip doubles tool life ... Apr. 26 69
Russia looks at its machine tools ... July 19 92
Russian plants –visitor's view reported by Peter H. Ponta (T) ... Nov. 22 33
Russian tour group answers questions (T) ... Nov. 22 33
September rivalries (ed) ... Sept. 27 51
Simplified tool-force calculations (Ref. Bk. Sheets) (tables) 1,2, Nov. 8-105. 3, ... Dec. 6 115
SBA liberalizes tool and die loans ... Aug. 30 76
Soviet equipment in lead? (T) ... Feb. 15 59
Soviet machine tool industry – Kosygin calls for 9% growth (T) ... Jan. 4 35
Soviet visit by machine tool team (T) ... June 21 41
To sustain the momentum (ed) ... June 21 91
Tool and die business up 5-10% ... Aug. 16 89
Tool recesses blind holes. J. Waller (PI) ... Dec. 6 123
Tool Show – EDN, NC, finishing share the limelight ... Apr. 12 74
Tool Show issue (cover) ... Mar. 15 1
Tools for Colombia (T) ... June 21 49
Tools for Freedom Foundation, Inc. reorganized; Burnham Finney new president (T) ... June 7 43
Twenty tools without a changer – NC machining center with 20-quill-type spindles ... June 7 127
Up to 10% of orders now rated (T) ... June 21 41
Westec show – Japan, Italy and Canada eye US markets ... Mar. 15 99

**Machinery**
A center column gets flexible ... Mar. 1 46
Machining center built by Cincinnati Milling Machine Co. (T) ... Sept. 13 37
1964 – a look at the records (T) ... Feb. 15 59
1965 outlook – Forecast: new orders for machinery (charts) (report) ... Jan. 18 135
1965 outlook – index of metalworking production (charts) (report) ... Jan. 18 137
Orders for '65 to show 5% gain (table) ... July 5 85
Orders seen up 5% in 1966 (table) ... Dec. 20 65
Orders to rise 10% in '65 (table) ... Sept. 27 70
SBA liberalizes tool and die loans ... Aug. 30 76

Magnesium – Outlook for nonferrous metals (T) ... June 21 45

**Magnetic Equipment**
Bigger coils form elbows magnetically (MR) ... Jan. 4 3
Magnet helps check rubber parts. E. Goulet (PI) ... Dec. 20 93
Magnet helps tools find edge. J.B. Canaan (PI) ... Mar. 29 103
Magnetic forming in a big way – 40 capacitors bend large elbows. Larrimer & Hinks ... Jan. 4 47
New jobs for magnetic chucks ... Mar. 15 95

**Maintenance**
Bearing races removed from blind holes. G. Smith (PI) ... July 19 121
Broken file removes lathe backplate. H. Spinks (PI) ... Oct. 25 128
Cleanup campaign cleans up – Hoover Ball and Bearing five-year-old campaign ... June 7 123
Die manipulator opens like a clam ... Aug. 2 92
Die manipulator opens like a clam for on-site repairs (MR) ... July 19 3
Gage blocks. H.J. Mote (report) (tables) ... Aug. 16-97-108
NC today. R.L. Hatscheck (charts & tables) (report) ... Nov.22-109-116
Quick air-cylinder repair. R. Isetts (PI) ... June 21 136
Removing a seized pipe plug. W. Winger (PI) ... Aug. 30 104
Teaching NC troubleshooting. George DeGroat ... July 5 78
Tonnage meter prevents breakdowns, keeps an eye on press overloads. Rupert Le Grand ... Mar. 15 105
Why do bearings fail? Charles Emerson ... Oct. 11 116

**Management**
The AM Award – Charles H. Patterson ... Dec. 20 76
An experience to learn by (ed) ... Dec. 6 83
'Blast' creates a product – IERC meetings. J.E. Spurling ... Apr. 2 98
Bodine Electric Co. – going modern at a profit. Bodine & Helmig ... July 19 83
Check rein on computers – 'real-time data processing' and 'management by exception'. J.E. Sandford ... Sept. 27 67
Distributors broaden sales skills – AMTDA's multi-city workshop series ... May 24 79
Gleason, Lawrence and Howard Carver bring a new spark to 100 year old Gleason Works (cover) ... Sept. 27 1
Gleason's new gusto. A. Ashburn & others ... Sept. 27 75
PCQ: spotting productivity change (report) (charts) ... June 7-129-138
The PCQ of productivity (ed) ... June 7 107

Mandrels – Fast acting mandrel. C. McLaughlin (PI) ... July 19 121

**Manpower** (see **Labor**)

**Materials Handling**
Automatic part pick-off for progressive die. C. McLaughlin (PI) ... Dec. 20 93
Chevrolet-Tonawanda engine plant – pistons ride a roller coaster. Charles Emerson ... Sept. 27 62
Chute gate diverts work flow. F. Lettino (PI) ... Apr. 12 100
Computer speeds materials flow at IBM plant ... Nov. 8 81

Curved chutes aid work flow. F. Lettino (PI) ... Feb. 15 107
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ... Mar. 15-109-124
2. Loaders and unloaders ... Oct. 25-103-118
Lost and found lugs. J. Wood (PI) ... May 10 115
Material flow paths that follow circles (MR) ... Jan. 18 3
Metal coils are railed and weighed non-stop to leveler (MR) ... Mar. 1 4
New angles on conveyors. Rupert Le Grand ... Dec. 6 94
1965 outlook – Technical outlook: materials handling (report) ... Jan. 18 154
Stamping shop plant layout loops the loop. Emil Loeffel ... Feb. 1 66

**Measuring**
Contactless device 'listens' to and measures vibration (MR) ... Oct. 25 4
Decisions, decisions – automatically – machine measures two parts, picks which bearing ball size fits best, then assembles part. Charles Emerson ... Mar. 1 48
Depth mike measures countersink diameter. H. Koslow (PI) ... Apr. 12 99
Don't trust mike 'feel'. W.F. Conroy ... Mar. 1 49
Gage blocks. H.J. Mote (report) (tables) ... Aug. 16-97-108
How accurate is your NC? P.H. Grissom ... Feb. 1 77
How to gage a gage block. G.D. Webber (table) ... July 5 83
Measuring a steel part with a comparator and gage blocks (cover) ... Aug. 16 1
Measuring system can't lose count from end of scale (MR) ... Mar. 29 3
Micrometer checks inside tapers. B. Lechler (PI) ... Mar. 1 76
Optical tool – 3 lines-of-sight in one setting (MR) ... Apr. 26 3
Optics caliper Saturn's rings. E.V. Mades ... July 5 73
Tonnage meter prevents breakdowns, keeps an eye on press overloads. Rupert Le Grand ... Mar. 15 105
Ultra-fine surface flaws measured with laser device (MR) ... Mar. 15 3

Metal Show – 1965 Detroit Metal Show in print ... Oct. 11 151

**Milling**
Bits rotate in unique milling tool ... Mar. 15 99
British rolling mill design achieves tolerances eight times better than American standards ... July 5 153
Cincinnati miller cuts slots in cooling fins of Klystron tube (cover) ... Oct. 25 1
Doubling a Keller's output turns out six jet transport flap tracks at a time. Charles Emerson ... Mar. 1 37
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ... Mar. 15-109-124
2. Loaders and unloaders ... Oct. 25-103-118
High-alloy rings for jet engines milled on new machine (MR) ... Nov. 22 4
Lease a blade carbides mill plate (MR) ... June 21 4
Milling cut aids threading. P. Hennig (PI) ... July 5 109
Milling deep slots with thin cutters. C. McLaughlin (PI) ... Dec. 6 123
Milling a fine finish. W. Keller (PI) ... Mar. 29 103
Milling a large radius. R. Penner (PI) ... Aug. 2 117
Milling machine turns shafts. D. Wienss (PI) ... Aug. 16 117
Milling tool for small shop. R. Parmley (PI) ... Nov. 22 140
Multi-part milling with NC. Alfred Bauer ... Jan. 18 109
No margin for error – manufacture of Klystron transmitter tube. George DeGroat ... Oct. 25 92
Profile miller accepts commands from either an NC system or electrohydraulic tracer unit (T) ... Nov. 8 19
Round edges milled square. C. McLaughlin (PI) ... Feb. 15 107
Slash tooling cost for gang milling by mating cutters in a hurry – Springfield Armory. J.R. Nalwalk ... Apr. 12 71
Standardized NC cutting tools. Alan Baker (report) (tables) ... June 21-115-122
Vise jaws aid milling. A. Pippi (PI) ... Mar. 29 104

**Missiles** (see **Aerospace Manufacturing**)

**Modernization**
Bodine Electric Co. – going modern at a profit. Bodine & Helmig ... July 19 83
Hydraulic-pump retooling at Roper Pump. Fran Ridgway ... Mar. 29 86
Navy yards to undergo five-year updating ... Apr. 12 78
The PCQ of productivity (ed) ... June 7 107
PCQ: spotting productivity change (report) (charts) ... June 7-129-138
SBA liberalizes tool and die loans ... Aug. 30 76
Tool modernization urged (T) ... May 24 55
When 'cost effectiveness' starts (ed) ... Apr. 12 63

**Molds** (see **Forming**)

Molybdenum – 1965 outlook – Technical outlook: materials (report) ... Jan. 18 148

**Motors**
Mexico's diesel engine decree (T) ... Feb. 15 63
Pulse motors control feed of wheel grinder (MR) ... May 24 3

## N

**National Machine Tool Builders' Association**
Attitude on East-West trade (T) ... Nov. 22 19
Clean bill of health for automation ... Dec. 6 89
Machine tool orders and shipments Jan. 4-58, Feb. 15-79, Mar. 15-100, Apr. 12-78, May 10-80, June 7-122, July 5-82, Aug. 2-100, Sept. 13-61, Oct. 11-109, Nov. 8-80, ... Dec. 6 98
Machine Tool Show – 1965 ... Sept. 13-159-260
The Chicago shows ... Oct. 11 121
Machine Tool Show – pre-show activity shifts into high at Chicago's International Amphitheatre (cover) ... Aug. 30 1
More than just machine tools ... Aug. 30 74
Marx., Graham E. elected president (T) ... Nov. 8 35
New officers 1965-66 ... Nov. 22 143
1965 outlook – NMTBA: net new orders and shipments (tables) (report) ... Jan. 18 131
1965 Machine Tool Show: sneak preview. Anderson Ashburn ... June 21 93
Pease, Julian sees Machine Tool Show as milestone (cover) ... June 21 1
Upheaval in staff (T) ... Nov. 8 35
Yes, but is it new? (ed) ... Sept. 13 157
The other two (ed) ... Sept. 13 157
The real news about Chicago (ed) ... Oct. 11 105
Why the rush? (ed) ... Oct. 11 105

National Screw Machine Products Association – Design of scre-machine products. Cappon & Eichstaedt (Ref. Bk. Sheets) 7 & 8 ... Jan. 4 71

**National Tool, Die & Precision Machining Association**
Clean bill of health for automation ... Dec. 6 89
SBA liberalizes tool and die loans ... Aug. 30 76
Training from scratch. W.E. Hardman ... June 21 98

**Nickel**
High-speed nickel plating, 1 & 2. R.J. Kendrick (Ref. Bk. Sheets) (charts & tables) ... Jan. 18 157
New form of primary metal for nickel products (MR) ... Dec. 20 4
Nickel parts are the products of electroforming (MR) ... Jan. 4 4
Nickel plating improved by simulated tests (MR) ... Aug. 2 3
1965 outlook – Technical outlook: materials (report) ... Jan. 18 148
Outlook for nonferrous metals (T) ... June 21 45

**Numerical Control**
All-NC die goes to press at Olivetti. Caja & Garetti ... Mar. 15 92
APT-less contouring tapes? S.H. Chasen ... July 5 69
'Buy 551 NC profilers by 1969' – Ad Hoc Advisory Machine Tool Committee to Air Force (chart & tables) ... May 24 77
CAD saves programming time for machining tape (MR) ... June 21 3
Cintimatic goes horizontal ... July 5 88
Cintimatics – new horizontal vs vertical No. 3 (MR) ... July 5 3
Closeup of an NC system front panel (cover) ... Nov. 22 1
Costs cut on path control – contouring NC system with separate interpolation. H.L. Hatschek ... Mar. 29 77
Contour NC at $8000 (T) ... Mar. 29 63
Electric 'half-nut' indexes threading on low-cost NC unit (MR) ... Mar. 15 3
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ... Mar. 15-109-124
2. Loaders and unloaders ... Oct. 25-103-118
Finding new jobs for APT. Fein & Kreh ... May 10 72
First German count of NC (T) ... May 10 57
Five-axis NC machining center to be used purely for research (T) ... Oct. 11 27
Ford – manufacturing today 1. How Ford makes dies with NC ... Dec. 20 80
Getting the most out of NC. D.M. Koons & others (chart) ... Dec. 6 85
Guide to numerical control equipment: Machine Tool Show, Production Engineering Show; International Machinery Show ... Sept. 13 165
Numerical control updated ... Oct. 11 133
Hassle over tape coding. R.L. Hatschek ... Aug. 2 93
Horizontal-spindle NC machine has an optional rotary indexing table (cover) ... July 5 1
How accurate is your NC? P.H. Grissom ... Feb. 1 77
'How to succeed with NC' – highlights from NCS Chicago meeting. R.L. Hatschek ... May 10 76
Machine tool buying to ride high through '66 – 22% of cutting machine sales will be NC. E.M. Stecher (charts & tables) (report) ... Aug. 30-85-96
Modular tooling for NC. Charles Emerson ... May 24 71
Moog forms English subsidiary (T) ... Dec. 6 41
Moog gets NC patent (T) ... Apr. 26 55
Multi-part milling with NC. Alfred Bauer ... Jan. 18 109
Multi setups cut total time for simple NC work (MR) ... Jan. 4 3
1965 outlook – Technical outlook: numerical control (report) ... Jan. 18 141
No hand work for producing dies at Olivetti (MR) ... Mar. 15 3
NC boring mill to take 1-million-lb nuclear vessels (MR) ... Nov. 22 3
NC for 'broken' long runs. B.C. Brosheer ... Nov. 8 82
NC guides a two-headed elephant – Farrel boring mill ... Oct. 25 102
NC in a job shop. L.A. Roth ... Nov. 22 108
NC lathes turn a quick profit. Bergman & Griffith ... Apr. 12 69
NC machining center has 20-quill-type spindles, needs no tool changer (cover) ... June 7 1
NC patent situation (T) ... July 19 33
NC sizing unit controls grinding wheel advance (MR) ... Sept. 27 3
NC today. R.L. Hatschek (charts & tables) (report) ... Nov. 22-109-116
Parabolic interpolation for diesinking? (MR) ... Mar. 15 4
Precision chucker with NC does contouring work (MR) ... Sept. 13 3
Retrofit with NC controls goes down in cost (MR) ... Apr. 12 4
Shipments (T) ... Mar. 15 77
Shop cuts NC program time. Philip Kronzer ... Mar. 1 39
Simulator aids programming ... July 19 91
Standardized NC cutting tools. Alan Baker (report) (tables) ... June 21-115-122
Teaching NC troubleshooting. George DeGroat ... July 5 78
Third generation NC makes debut ... May 10 80
3-axis contouring minus interpolating from Bendix (MR) ... Mar. 29 3
Tool Show – NC shares the limelight ... Apr. 12 74
Twenty tools without a changer – NC machining center with 20 quill-type spindles ... June 7 127
Two boosts for Saturn – 2: NC contouring with a punchpress. Gary Neher ... June 7 112
Two NC axes control 3 directions in simpler machine (MR) ... Jan. 18 4
VTL simulator aids NC programming (MR) ... July 19 3
What numerical control costs (T) ... Mar. 1 27
Whiting Corp. – we bet a million on NC. E.E. Bergman ... Nov. 22 106
'Wire service' programs NC. Nils Olesten ... May 10 86
Numerical Control Society – 'How to succeed with NC' – highlights from Chicago meeting. R.L. Hatschek ... May 10 76

## O

**Ordnance Manufacturing**
Lightweight, ceramic armor (T) ... Nov. 22 39
Slash tooling cost for gang milling by mating cutter in a hurry – Springfield Armory. J.R. Nalwalk ... Apr. 12 71

**Oxide Tools** (see **Ceramics**)

Ion plating cleans and coats in one step (MR) ..... Jan. 4 4
Microcracked chrome plate for auto parts (MR) ..... Dec. 20 4
Nickel plating improved by simulated tests (MR) ..... Aug 2 3
1965 outlook – Technical outlook: cleaning and finishing (report) ..... Jan. 18 150
Plated plastics: pro and con ..... June 7 124
Protective coats are plated on magnesium-lithium (MR) ..... Nov. 8 4
Silver plating of stainless prevents seizing (MR) ..... Nov 8 4
Sputtering system yields high rates in metal plating (MR) ..... Feb. 15 4
Vapor coating. J.E. Sandford (report) ..... Mar. 1-51-66

**Polishing**
High finishes at high speeds. George DeGroat ..... Dec. 20 64
Router, sander cut radiusing time 75% ..... Mar. 29 92
Vibratory finishing of complex parts. George DeGroat ..... May 24 80
Wire brush deburrs and polishes. P. Hennig (PI) ..... June 21 135

**Positioners**
How accurate is your NC? P.H. Grissom ..... Feb. 1 77
Welding setups for short runs for vending machines ..... Mar. 29 93

**Powder Metals**
All-PM differential wins award from Metal Powder Industries Federation ..... July 19 96
Metal powder parts are fabricated by 'spark sintering' (MR) ..... Aug 30 3
Molding powder for sintered parts is less corrosive (MR) ..... July 5 3
New standard issued for metal powder parts (MR) ..... Aug 30 4
New technology based on submicron powders (MR) ..... July 5 4
1965 outlook – Technical outlook: materials (report) ..... Jan. 18 147
One-shot powder metal parts. George DeGroat ..... Oct. 11 107
One-step welding with cobalt-base wear-facing alloys (MR) ..... Dec 20 3
Powder lubricants for high-speed gears and bearings (MR) ..... Dec 6 4
Process for developing extremely fine powder (T) ..... June 21 25
Standard for powder metallurgy part case hardness determination issued (T) ..... July 19 19
Tungsten tubing formed from metal powders (MR) ..... Aug. 30 4

**Press Brakes**
"Poly" dies cut tooling costs on press brakes (MR) ..... Jan. 4 3
Press brake dies made of 'rubber'. Rupert Le Grand ..... Jan. 4 53
Press brake forms U-bolts quickly. R. Phillip (PI) ..... July 19 122

**Pressworking**
Aerospace firms backing colossal forging press (T) ..... Feb. 1 49
Comparator guides a drillpress ..... Mar. 29 85
Computer designs presses – ADE, Babcock & Ingmire ..... Nov. 22 102
Counter for kick presses. A. Pippi (PI) ..... July 19 122
Die plates changed in an instant on new OBI press (MR) ..... Mar. 29 4
Extreme draws in one shot – Metal-Flo process ..... Jan. 18 116
Ford Werke runs ultra-modern press line ..... Oct 25 151
Gang punching goes big time. Harold Lovdahl ..... Feb. 1 63
How die cushions work. J. Hoenig ..... Jan. 4 59
Less torsional windup in Warco press design (MR) ..... Feb. 15 3
Mechanical presses. Rupert Le Grand (report) ..... May 10-89-104
Nonrepeating devices for power presses. B. Wolf (PI) ..... June 7 147
One-shot powder metal parts. George DeGroat ..... Oct 11 107
Press generates burr-free parts. M. Ahlberg (PI) ..... Aug. 2 117
Press minimizes dome thinning ..... Nov 8 84
Rolling bolster fits any press in the line (MR) ..... May 10 3
60-ton press – a special for rule dies (MR) ..... Mar. 29 3
Sonic press for forging, forming now a possibility. Dr. L. Balamuth ..... Jan. 18 118
Stamping shop plant layout loops the loop. Emil Loeffel ..... Feb. 1 66
Stock straighteners for presses 1, 2. E.R. Enberg (Ref. Bk. Sheets) ..... Oct. 25 121
Tonnage meter prevents breakdowns, keeps an eye on press overloads. Rupert Le Grand ..... Mar. 15 105
Tooling a fourslide. C.J. Labonack 1, Aug. 2-87, 2, Aug. 16-90, 3, Aug 30-80, 4, Sept. 27-56, 5, Oct. 11-118, 6, Oct. 25-97, 7, Nov. 8-86, 8, ..... Dec. 6 90
Two boosts for Saturn – 2. NC contouring with a punchpress. G. Neher ..... June 7 112

**Prices**
The cost of machinability. G.B. Troup (report) (charts & tables) ..... Apr. 12-79-86
1965 outlook – index of metalworking prices (charts) (report) ..... Jan. 18 136
1965 outlook – what's happening to wages and prices (tables) (report) ..... Jan. 18 134
Relate costs to machinability for grades of steel (MR) ..... Apr. 12 4
A stockpile is not a toy (ed) ..... Dec. 6 83
That controversial Norton plan – direct factory-to-customer selling ..... Mar 15 91

**Product Development**
'Blast' creates a product – IERC meetings. J.E. Spurling ..... Aug. 2 98
Requiem for mass production (ed) ..... Jan. 18 107

**Production Control**
AMP: from design to manufacturing in minutes (MR) ..... Nov. 8 3
Bodine Electric Co. – going modern at a profit. Bodine & Helmig ..... July 19 83
Cam control cuts contouring costs. George DeGroat ..... Sept. 27 71
Cleanup campaign cleans up – Hoover Ball and Bearing five-year-old campaign ..... June 7 123
The cost of machinability. G.B. Troup (report) (charts & tables) ..... Apr. 12-79-86
'Die-Namic' process – change dies in 90 seconds ..... Mar. 29 91
Fabricating a deep-sea sphere. G.F. Gayer ..... Nov. 22 96
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ..... Mar. 15-109-124
2. Loaders and unloaders ..... Oct. 25-103-118
For faster die changing try standardized die parts. Rupert Le Grand ..... Oct. 25 89
Ford – manufacturing today
1. How Ford makes dies with NC ..... Dec. 20 80
2. Computer tests transmissions ..... Dec. 20 83
3. 1000 axles and hour ..... Dec. 20 85
Gleason's new gusto. A. Ashburn &others 'Store parts instead of machines' ..... Sept. 27 75
Everything from small mills to NC centers ..... Sept. 27 77
Hammer forming a laminate for Minuteman missile. Bjork & Foster ..... Sept. 27 79
Hydraulic-pump retooling. Fran Ridgway ..... Feb. 15 74
Making a light frame rigid –Xerox's desk-top copier ..... Mar. 29 86
NC for 'broken' long runs at John Deere-Dubuque Tractor Works. B.C. Brosheer ..... May 10 81
Operation sheets from a computer ..... Nov. 8 82
The PCQ of productivity (ed) ..... Nov. 8 90
PCQ: spotting productivity change (report) (charts) ..... June 7 107
Productivity is not a crime (ed) ..... June 7-129-138
Regearing for volume output. George DeGroat ..... Feb. 15 67
Split line forms furnace cases ..... June 21 100
Taking heavy cuts with ceramics. Harold Smith ..... Apr. 26 72
That controversial Norton plan – direct factory-to-customer selling ..... May 24 82
'Transfer line' for short runs – machining tractor flywheels ..... Mar. 15 91
Two boosts for Saturn
1. Huge fixtures weld the S-IC. W.B. Edmiston ..... Aug. 16 83
2. NC contouring with a punchpress. Gary Neher ..... June 7 109
When you switch to automatics ... tips on how to bring scheduling, tooling and operating methods into line. K.U. Matt ..... June 7 112
Whiting Corp. – we bet a million on NC. E.E. Bergman ..... Jan. 4 51
..... Nov. 22 106

**Production Control** (see also **Management**)

**Production Engineering Show**
The exhibitors and their booth locations ..... Sept. 13 389
Guide to numerical control equipment ..... Sept. 13 165
Guide to tracer and in-process gaging equipment ..... Sept. 13 169
Production Engineering Show in print ..... Sept. 13 395
The Chicago shows ..... Oct. 11 121
The other two (ed) ..... Sept. 13 157
The real news about Chicago (ed) ..... Oct 11 105

**Profiling** – 'Buy 551 NC profilers by 1969' – Ad Hoc Advisory Machine Tool Committee to Air Force (chart & tables) ..... May 24 77

**Protractors** – Protractors make parallel bars. E. Goulet (PI) ..... Nov. 8 114

**Pumps**
Hydraulic-pump retooling. Fran Ridgway ..... Mar. 29 86
Liquid-metal thermoelectromagnetic pump (MR) ..... June 7 4
Soluble oil takes to the pipe ..... Jan 18 122

**Punches**
Angled punches shed slugs. F. Rush (PI) ..... June 21 135
Dies punch tiny circuit boards. Rupert Le Grand ..... July 19 94
Dimensioning special punches. F. Rush (PI) ..... Apr. 12 99
Dual centerpunch aids layout. H. Campbell (PI) ..... Mar. 1 76
Gang punching goes big time. Harold Lovdahl ..... Feb. 1 63
Life squeezed into punches. W. Keller (PI) ..... Mar. 1 75
Punch made from hacksaw. C. Rough (PI) ..... Oct. 11 147
Punch reverses countersinks. A. Pippi (PI) ..... Jan. 18 166
Tiny hole punching in miniature circuit boards (MR) ..... July 19 3
Two boosts for Saturn – 2. NC contouring with a punchpress. G. Neher ..... June 7 112

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

**Punches** (see also **Dies**)

**Purchasing**
C-5A cargo plan will be bought under 'total package' contract by Air Force (T) ... Mar. 29 57
Carborundum Co.'s answer to Norton plan (T) ... Apr. 12 47
Competitive bidding pushed (T) ... Mar. 1 21
Diamond wheel quantity purchase plan revised (T) ... Aug. 2 23
How to kill competition (ed) ... Aug. 16 81
Think about it (ed) ... Aug. 16 81
How to control supplier quality. P.B. Crosby (report) ... Nov 8-93-104
Norton plan – direct factory-to-customer selling ... Mar. 15 91
Stockpile sales outlook brightens (T) ... Apr. 26 49
When 'cost effectiveness' starts (ed) ... Apr. 12 63

## Q

**Quality Control**
Don't trust mike 'feel'. W.F. Conroy ... Mar. 1 49
18-month study on the reliability of soldered and welded microelectronic circuit connections (T) ... July 5 23
Fabricating a deep-sea sphere. G.F. Gayer ... Nov. 22 96
How to control supplier quality. P.B. Crosby (report) ... Nov 8-93-104
A laser checks out tools. R.G. Chamberlain ... Aug. 30 71
Making a light frame rigid – Xerox's desk-top copier ... May 10 81
Mobile labs for on-the-spot quality control (MR) ... Dec 6 4
No margin for error – manufacture of Klystron transmitter tube. George DeGroat ... Oct. 25 92
A primer on automatic assembly. Charles Emerson (report) ... Feb 15-83-98
Shift in defense emphasis (T) ... May 24 61

**Quenching** (see **Heat Treatment**)

## R

**Radiography** (see **X-Rays**)

Railroads – Wheel grinding hits the rails – Japanese setup for trueing railway wheels. Charles Cohen ... May 24 74

**Reaming**
Small chucking reamers, 1 & 2 (Ref. Bk. Sheets) (tables) ... Mar 15 127
Standardized NC cutting tools. Alan Baker (report) (tables) ... June21-115-122
Reference Book Sheets – Jan. 4-71, Jan. 18-157, Feb. 4-83, Feb. 15-99, Mar.1-67, Mar. 15-127, Mar. 29-97, Apr. 12-89, May 10-107, June 7-141, 143, June 21-125, 127, July 5-101, 103, July 19-113, 115, Aug. 2-111, Aug. 16-109, Aug. 30-97, Sept. 27-85, Oct. 11-139, Oct. 25-121, Nov. 8-105, Nov. 22-129, ... Dec. 6-115,117

**Research**
AM survey shows: machine tool buying to ride high through '66 – 58% have manufacturing research programs. E.M. Stecher (report) (charts & tables) ... Aug. 30-85-96
Brazing a two-mile-long pipe – Stanford University's linear accelerator. George DeGroat ... Apr. 12 65
Britain's fluid logic research (T) ... Dec. 20 43
Conference on New Technology from NASA (T) ... Jan. 4 27
DOD launches materials studies (T) ... Apr. 12 49
Five-axis NC machining center to be used purely for research (T) ... Oct. 11 27
'Harvest from the heavens' – contributions that the aerospace industry is making to our way of life (T) ... Nov. 8 37
HERF research center (T) ... May 10 55
Hologram shows object's 4-sides in one 'picture' (MR) ... Nov. 8 4
Metalworking research – total spent in 1963 (T) ... May 24 53
1965 outlook – R&D outlays (chart & table) (report) ... Jan. 18 125
Status of US metalworking research ... May 24 76

**Rings**
'O-ring' solves flared-joint mismatches (MR) ... July 19 4
Rings control welding heat on Titan III rocket engine frame. W.G. Smith Jr. ... June 7 114
Running rings around Saturn
1. Optics caliper Saturn's rings. E.V. Mades ... July 5 73
2. Stress relieving Saturn's rings. Isaac Bensussen ... July 5 76

**Roll Flowing** (see **Shear Forming**)

**Rubber**
Metal molds for rubber parts. D.B. Bett ... June 21 103
Press brake dies made of 'rubber'. Rupert Le Grand ... Jan. 4 53

**Russia**
Leipzig's annual spring trade fair – Red tools shown. Richard Mikton ... Mar. 29 83
Machine tool industry – Kosygin calls for 9% growth (T) ... Jan. 4 35
Russia looks at its machine tools ... July 19 92
Soviet equipment in lead? (T) ... Feb. 15 59
Tour talk by Russian group (T) ... Nov. 22 33
Visitor's view of Russian plants reported by Peter H. Ponta (T) ... Nov. 22 33

**Rust Prevention** (see **Corrosion**)

## S

Safety – Keeping oil mist under wraps. L.E. Geyer ... Aug. 30 84

Salvage – Heat treat salvages work. B. Long Jr. (PI) ... Nov. 8 114

**Sandwich Structures** (see **Honeycomb**)

**Sawing**
Bandsawing or hacksawing? R.E. Nelson (charts & tables) ... Nov. 22 90
Hack sawing vise blocks. C. Bell (PI) ... May 10 115
New band machining features: tracer and feed controls (MR) ... Sept 13 4
Removable split cones aid heavy stock control. F. Rush (PI) ... Oct. 11 147
Single saw makes a punch and die. G. Oates (PI) ... Nov. 22 139
Standardized NC cutting tools. Alan Baker (report) (tables) ... June21-115-122

**Scrap**
Oxidizing steel saves scrap metal, cleans up junk (MR) ... Aug. 30 3
Transfer dies cut scrap loss (charts) ... June 7 120

**Screw Machines** (see **Turning**)

**Screws**
ISO accepts Unified Screw Thread Tolerance System for Inch Screws (T) ... Feb. 1 43
Self-tapping screws for diecasting, 1 & 2. Harvey Phipard (Ref. Bk. Sheets) (tables) ... Feb. 1 83
Slotted screws become taps. H. Miller (PI) ... Oct. 25 128
When a fastener doesn't fasten. W.A. Toepel ... Jan. 4 63

**Scribers**
Scriber makes small circles. A. Pippi (PI) ... Aug. 16 117
Scriber moves on rollers to mark rounds. C. Bossmann (PI) ... Dec. 20 93

Sealing – Castings sealed for testing. J. Waller (PI) ... Oct 11 147

**Shafts**
Ball makes telescopic shaft. J. Waller (PI) ... Jan. 18 165
Collars pressed on shafts. R. Phillip (PI) ... May 24 114
Sulfur sleeve inside turbine shaft pilots boring bar ... Aug. 16 85
Faster by the dozen. M.Bouyer (PI) ... Apr. 12 99

**Shaving**
Fast gear shaving – 1965 Machine Tool Show preview. Anderson Ashburn ... June 21 95
Press shaves teeth at rates 100 times faster (MR) ... Mar. 1 3
Seven-times-faster-than-conventional gear shaving (T) ... June 21 25

Shear Forming – Thread roller works in two directions (MR) ... June 21 4

**Shearing**
Fast test for spotwelds. D.F. Wetzel ... June 21 114
Gear finisher shears inexact, rough gears (MR) ... June 21 3

**Shipbuilding**
Navy yards to undergo five-year updating ... Apr. 12 78
When 'cost effectiveness' starts (ed) ... Apr. 12 63

**Shipping** (see **Materials Handling**)

Shop shots – Jan. 4-64, Mar. 29-88, May 10-84, July 5-86, ... Nov. 22 100
Short ends. H. Gerber – Jan. 4-80, Feb. 1-92, Feb. 15-108, Mar. 15-194, Apr. 12-100, Apr. 26-108, May 10-116, June 7-148, July 5-110, ... Aug. 16 118

**Shrinking** (see **Fits**)

**Silver**
Diffusion bonding uses silver between aluminum (MR) ... Mar. 15 4
Silver coinage (T) ... May 10 59
Silver plating of stainless prevents seizing (MR) ... Nov. 8 4

Sine Bars and Tables – Sine bar has many uses. E. DiGiandomenico (PI) ... Jan. 18 165

Slotting – Slotter lay-out holes. A. Pippi (PI) ... Aug. 2 118

**Soldering**
Beryllium oxide soldering tip won't tin (MR) ... Mar. 15 4
Clad fins for Al cores solder better (MR) ... Feb. 1 4
Infrared controls induction soldering (MR) ... Aug. 30 4
1965 outlook – Technical outlook: new soldering methods (report) ... Jan. 18 149
Solder Sniffer speedily snuffs circuits (MR) ... Mar. 1 3
SAE's Aeronautic and Space Engineering and Manufacturing meeting in L.A. – all out for adaptive controls? ... Oct. 25 96

**Special Reports**
AM survey shows: machine tool buying to ride high through '66. E.M. Stecher (charts & tables) ... Aug. 30-85-96
The cost of machinability. G.B. Troup (charts & tables) ... Apr. 12-79-86
Fast ways to change work. B.C. Brosheer
1. Matching methods to machines ... Mar. 15-109-124
2. Loaders and unloaders ... Oct. 25-103-118
Fundamentals of turning. R.T. Berg
Pt 1 ... Apr. 26-79-94
Pt 2 ... Dec. 6-103-114
Furnace atmospheres. J.J. Dwyer Jr. (tables & flow diagrams) ... July 19-97-106
Gage blocks. H.J. Mote (tables) ... Aug. 16-97-108
How to control supplier quality. P.B. Crosby ... Nov. 8-93-104
List of American Machinist Special Reports since 1955 ... Sept. 13 340
Mechanical presses. Rupert Le Grand ... May 10-89-104
1965 outlook (charts & tables) ... Jan. 18-123-154
Pt. 1. Economic outlook ... Jan. 18-123-137
Pt. 2. Technical outlook ... Jan. 18-138-154
NC today. R.L. Hatschek (charts & tables) ... Nov.22-109-116
PCC: spotting productivity change (charts) ... June 7-129-138

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

A primer on automatic assembly. Charles Emerson — Feb. 15-83-98
The role of metalworking in the balance of payments. J.J. Dwyer Jr. (charts & tables) — May 24-85-100
Standardized NC cutting tools. Alan Baker (tables) — June21-115-122
Vapor coating. J.E. Sandford — Mar. 1-51-66
Welding heat-treated steels. Doty & Szekeres (charts & tables) — July 5-91-98
What you should know about broaching. C.O. Lofgren — Aug. 2-101-108

**Speeds**
All out for adaptive controls? – SAE's West Coast meeting — Oct. 25 96
CEM (controlled energy machining) – for tougher metals, less hp? R.F. Rieger — Apr. 26 65
For a cooler cutting tool put the vapor coolant at the tip of the cutting tool. H.J. Mote — Aug. 30 77
A new machinability index. J.R. Ewell (charts) — Dec. 20 72

**Spindles**
Cintimatic goes horizontal — July 5 88
Doubling a Keller's output turns out six jet transport flap tracks at a time. Charles Emerson — Mar. 1 37
Doubling Kellering serves up almost two-fold flap tracks (MR) — Mar. 1 4
Horizontal spindle boom – Machine Tool Show preview. Anderson Ashburn — June 21 94
Spindles are nondeflecting on centerless grinder (MR) — Apr. 26 4
Standardized NC cutting tools – report. Alan Baker (tables) — June21-115-122
Twenty tools without a changer – NC machining center with 20 quill-type spindles — June 7 127

Spinning – Spinning limits for aerospace alloys (Ref. Bk. Sheet) (table) — July 19 113

**Springs** – test for light springs. E. Goulet (PI) — June 7 148

**Stamping**
Aids to stamping. C. McLaughlin (PI) — Oct. 25 128
All-NC dies goes to press at Olivetti. Caja & Garetti — Mar. 15 92
Blanking machine has pinch rolls to actuate dies (MR) — Nov. 8 3
Blanking odd-shaped metal stampings. F. Strasser (PI) — Apr. 26 107
Change dies in 90 seconds – 'Die-Namic' process — Mar. 29 91
Continuous heat-quench-draw boosts strength of steel rods — Feb. 1 75
Deep draw forms shells in tandem dies (MR) — Jan. 18 3
Drawing limits for aerospace alloys (Ref. Bk. Sheet) (table) — July 5 101
End to hole piercing in auto bodies? New stud welding system — Feb. 15 79
Extreme draws in one shot – Metal-Flo process — Jan. 18 116
Fine blanking thick parts with a thin-part finish (MR) — July 5 3
Four-slide halves separator costs — Apr. 12 77
Fourslide machine is tooled up to form small brass parts from flat stock (cover) — Aug. 2 1
How to roughen a stamping. F. Strasser (PI) — Jan. 18 166
Less torsional windup in Warco press design (MR) — Feb. 15 3
No hand work for producing dies at Olivetti (MR) — Mar. 15 3
No margin for error – manufacture of Klystron transmitter tube. George DeGroat — Oct. 25 92
Plant layout loops the loop. Emil Loeffel — Feb. 1 66
Punching deep-drawn shells. M.J. Goldstein — Dec. 20 61
Sectioned coining tools have long life. R. Davey (PI) — Aug. 30 103
Split line forms furnace cases — Apr. 26 72
Stacked stampings save as substitute for molded parts (MR) — Jan. 4 4
Stampers' enemy: slug pulling. P.A. Smith — Nov. 22 87
Tooling a fourslide. C.J. Labonack 1, Aug. 2-87, 2, Aug. 16-90, 3, Aug. 30-80, 4, Sept. 27-56, 5, Oct. 11-118, 6, Oct. 25-97, 7, Nov. 8-86, 8 — Dec. 6 90
Transfer dies cut scrap loss (charts) — June 7 120

**Standardization**
ASTM issues one-third of its 1965 standards (MR) — Jan. 18 4
Bright hope or camel's nose? (ed) — July 19 81
Change to metric system (T) — June 21 29
Commodity standards hit roadblock (T) — July 19 23
For faster die changing try standardized die parts. Rupert Le Grand — Oct. 25 89
Hassle over tape coding. R.L. Hatscheck — Aug. 2 93
ISO accepts Unified Screw Thread Tolerance System for Inch Screws (T) — Feb. 1 43
Is metric better? (ed) — Jan. 4 43
JIC will become active again in hydraulic and pneumatic standards (T) — June 7 27
Joint Industrial Council formed — Apr. 12 77
MBT tank: metric/inch compromise — June 21 102
Metric study slowed (T) — Sept. 27 23
A midsummer night's fantasy (ed) — July 5 67
New standard issued for metal powder parts (MR) — Aug. 30 4
New standards procedure (T) — Sept. 27 23
Standard for powder metallurgy part case hardness determination issued (T) — July 19 19
Standard for sintered carbide nibs and dies (MR) — Jan. 4 4
Standardized NC cutting tools. Alan Baker (report) (tables) — June 21-115-122
Study of metric system conversion (T) — Aug. 2 27
Those conflicting surface specs. Miller & Lash — Apr. 12 72
US machine tool builders see no pressing need or advantage in a conversion to the metric system (T) — July 5 23
US and the metric system (T) — Aug. 30 23
Voluntary abrasive industry standard (T) — Aug. 16 21
Where we stand on standards — July 19 93

**Steel**
Alphatized sheet available for SS applications (MR) — Jan. 18 4
ASTM issues one-third of its 1965 standards (MR) — Jan. 18 4
Ausforging improves metal properties (MR) — Dec. 20 3
Bandsawing or hacksawing? R.E. Nelson (charts & tables) — Nov. 22 90
Burns Harbor steel plant in Indiana opens (T) — Sept. 27 33
Carbide inserts up die life 10:1 — Jan. 18 120
Coating reduces stainless brazing temperatures (MR) — Sept. 27 3
Colored steel is produced electrolytically (MR) — July 19 3
Continuous heat-quench-draw boosts strength of steel rods — Feb. 1 75
Continuous steelmaking – revolution in steelmaking (T) — Jan. 18 101
The cost of machinability. G.B. Troup (report) (charts & tables) — Apr. 12-79-86
Diamond grinding without loading — May 24 84
EDM cuts some 'impossibles' – fuel line gimbals. Kauffman & Schlesselman — Dec. 20 68
Fabricating a deep-sea sphere. G.F. Gayer — Nov. 22 96
Faster nitriding uses activator for easy diffusion (MR) — Aug. 16 3
For faster die changing try standardized die parts. Rupert Le Grand — Oct. 25 89
GE cuts studs, drops grinding on tough alloy (MR) — Nov. 22 4
Hardenability of steels (Ref. Bk. Sheets) (charts & tables) 1 & 2 Aug. 16-109, 3 & 4 Aug. 30-97, 5 & 6 Sept. 27-85, 7 & 8 — Oct. 11 139
Less 'gassing' about continuous casting (MR) — Mar. 1 3
Long metal filament is flexible enough for textile weaving (MR) — Feb. 15 4
Miniaturization demands ultra-thin strip — June 7 197
Molding powder for sintered parts is less corrosive (MR) — July 5 3
New refining process (T) — Dec. 6 23
1965 outlook – Technical outlook: materials (report) — Jan. 18 146
Now it's warm heading. J.W. Keegan (table) — Oct. 11 110
Oxidizing steel saves scrap metal, cleans up junk (MR) — Aug. 30 3
Pickling hot rolled steel coils with hydrochloric acid (T) — June 7 27
Pre-finished tool steels (T) — Mar. 1 29
Pure metal powder: small in size, large in surface area (MR) — Apr. 26 4
Radiant heat ups tensile of low carbon steel (MR) — Jan. 18 3
Relate costs to machinability for grades of steel (MR) — Apr. 12 4
Silver plating of stainless prevents seizing (MR) — Nov. 8 4
Sputtering system yields high rates in metal plating (MR) — Feb. 15 4
Stainless casting alloys (T) — Aug. 30 41
Strip coating at 200 fpm — June 7 119
Structural steel resists impact in subzero cold (MR) — Aug. 30 4
Tellurium: Rx for machinability. L.B. Schmitt (charts & table) — June 7 117
Tig filler for HP 9-4-25 alloy welds developed (MR) — Oct. 25 3
Tough metals formed cold. C.W. Phillips (chart) — Aug. 2 95
Tough metals formed without heat (MR) — Aug. 2 4
U.S. patent for treating steel sheet (T) — Nov. 22 19
Versatool, new grade of tool steel (T) — Apr. 12 57
Welding heat-treated steels. Doty & Szekeres (report) (charts & tables) — July 5-91-98

**Stops**
Disk acts as tool stop. F. Rush (PI) — Nov. 8 113
Gage stop for arbor ram. R. Hill (PI) — Nov. 8 114
Stepped stop cuts die cost. F. Rush (PI) — Mar. 1 75
Swivel vise stop pin. F. Fehely (PI) — Nov. 22 139

**Straightening**
Stock straighteners for presses, 1.2. E.R. Enberg (Ref. Bk. Sheets) — Oct. 25 121
Tubing straightens wire. M. Bouyer (PI) — Jan. 4 79

Studs – Studs form own driving dog. R. Phillip (PI) — Mar. 29 104

## T

**Tanks** (see **Ordnance Manufacturing**)

Tantalum – 1965 outlook – Technical outlook: materials (report) — Jan. 18 148

**Tape control** (see **Numerical control**)

**Tapers**
Micrometer checks inside tapers. B. Lechler (PI) — Mar. 1 76
Taper per foot – nomogram. Frank Murray (Ref. Bk. Sheet) — June 21 127

**Tapping and Threading**
Center column machine gets flexible — Mar. 1 46
Electric 'half-nut' indexes threading on low-cost NC unit (MR) — Mar. 15 3
Gisholt Machine Co. is exclusive distributor in US and Mexico of Tsugami machines (T) — Apr. 12 47
Guide insures straight thread. C. McLaughlin (PI) — Aug. 2 118
ISO accepts Unified Screw Thread Tolerance System for Inch Screws (T) — Feb. 1 43
Milling cut aids threading. P. Hennig (PI) — July 5 109
Power fed tail stock. K. Gupta (PI) — Aug. 16 118
Removing broken taps, drills. S. Clark (PI) — Aug. 16 118
Standardized NC cutting tools. Alan Baker (report) (tables) — June21-115-122
Tapping blind holes. J. Schmidt (PI) — Aug. 30 103
Trick stops tap breakage. A. Wallace (PI) — Mar. 1 75

**Taxation**
Administration's liberalized depreciation regulations will result in tax relief of about $700 million (T) — Mar. 1 19
Depreciation revisions give business a tax break — Mar. 15 108
The phantom and the formula (ed) — Nov. 8 77
Proposal asking for partial tax credit for training costs (T) — May 24 53
Repair the roof while the sun shines (ed) — Oct. 25 87

Tellurium – Tellurium: Rx for machinability. L.B. Schmitt (charts & table) — June 7 117

**Templets**
Rotary templet controls twin chucking machine (MR) — Feb. 1 3
Rotary templet guides chucker — Feb. 1 70
Templates made from plastic. D. Bett (PI) — Apr. 26 108
Templet aids die setup. R. Isetts (PI) — Aug. 16 117
Tracing device replaces templets. E.J. Sass — Aug. 16 94

**Testing**
Analyzer tests ball bearings without sound (MR) — Oct. 11 4
Digital readout simplifies hardness testing (MR) — Sept. 27 3
Don't trust mike 'feel'. W.F. Conroy — Mar. 1 49
Fast test for spotwelds. D.F. Wetzel — June 21 114
The flaw in standard turning tests (MR) — Mar. 15 4
Ford – manufacturing today 2. Computer tests transmissions — Dec. 20 83
High-speed Navy rig tests tensile (MR) — Jan. 18 4
Induced vibration – is it worth it? — Aug. 2 100
It's too costly not to test diamond wheels — Apr. 26 77
Metal stretcher is new device for cryogenic testing (MR) — July 5 4
A new machinability index. J.R. Ewell (charts) — Dec. 20 72
New turning tool test. L.A. Sowinski (charts & table) — Mar. 15 87
Correction — Mar. 29 85

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

1965 outlook – Technical outlook' inspection and testing (report) ... Jan. 18 142
Stresses are measured by 'static bend technique' (MR) ... Sept. 13 4
Test for light springs. E. Goulet (PI) ... June 7 148
Vibration tester checks machine's dynamic stiffness (MR) ... Oct. 11 4

**Threading** (see **Tapping**)

**Tin**
Adding tin cuts cost of machining gray cast iron (MR) ... July 19 3
High-tin Al in coiled sheets for bearings (MR) Apr. 12-4, (T) ... Apr. 12 57
Machining tin-alloyed iron. J.H. Sperman ... July 19 86
1965 outlook – Technical outlook: materials (report) ... Jan. 18 147
Outlook for nonferrous metals (T) ... June 21 45

**Titanium**
Boeing tells why titanium is superior to other metals for the SST airframe (T) ... Oct. 25 41
Cold forming titanium sheet. Berkland & Afarie ... Jan. 18 112
Drilling titanium alloys 1,2 (Ref. Bk. Sheets) (tables) ... Dec. 20 87
8-1-1 titanium isn't so hard to work (MR) ... May 10 3
How to work 8-1-1 titanium. George DeGroat ... May 10 67
1965 outlook – Technical outlook: materials (report) ... Jan. 18 148
Paste flux replaces inert gas backup for Tig welding (MR) ... Apr. 26 4
Stainless-steel shield keeps Ti pure in Tig welding (MR) ... Aug. 16 4
Titanium alloys formed by roll-diffusion bonding (MR) ... Aug. 2 3
Tough metals formed cold. C.W. Phillips (chart) ... Aug. 2 95
Tough metals formed without heat (MR) ... Aug. 2 4

**Toolholders**
Cutter lengths pre-set with new adapters and holders (MR) ... Apr. 26 3
One holder for many tools. J. Waller (PI) ... Mar. 15 193
Toolholder for unusual planing work. J. Waller (PI) ... Nov. 8 113

**Tools, Machinists Hand**
Dipping pliers save trouble. A. Pippi (PI) ... Mar. 15 194
Tool brushes and scrapes. F. Lettino (PI) ... Nov. 22 140

**Trade** (see **Export; Import**)

**Training**
American heads UN trade institute in India ... May 10 173
Distributors broaden sales skills – AMTDA's multi-city workshop series ... May 24 79
Engineering information centers in various universities (T) ... June 21 29
Italy – Turin training center troubles (T) ... May 24 65
Job training overhaul (T) ... Feb. 15 53
Pay-as-you-go apprenticeship at Picatinny Arsenal ... May 10 74
Peace Corps copes with apprentices abroad ... Mar 15 253
Pre-apprenticeship training for tool and die making (T) ... Sept. 27 27
Programmed aids for apprentice training ... May 10 83
Teaching NC troubleshooting. George DeGroat ... July 5 78
Training from scratch. W.E. Hardman ... June 21 98

**Transfer Machines**
Automatic pin, piston gaging in the automotive industry ... Nov. 22 94
Center column machine gets flexible ... Mar. 1 46
Decisions, decisions – automatically – machine measures two parts, picks which bearing ball size fits best, then assembles part. Charles Emerson ... Mar. 1 48
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ... Mar. 15-109-124
2. Loaders and unloaders ... Oct. 25-103-118
Split line forms furnace cases ... Apr. 26 72
'Transfer line' for shot runs – machining tractor flywheels ... Aug. 16 83
Transfer-line approach for small lots of flywheels (MR) ... Aug. 2 3

**Trimming** (see **Stamping**)

**Tubing**
Brazing a two-mile-long pipe – Stanford University's linear accelerator. George DeGroat ... Apr. 12 65
Duplex tubing HF welded with two metals (MR) ... Nov. 22 4
Limits for tube bulging (Ref. Bk. Sheet) (table) ... July 19 115
Pendulum tool forms ends of tubes. J. Waller (PI) ... July 5 109
Tungsten tubing formed from metal powders (MR) ... Aug. 30 4
Upsetting, coining bulged tube. C.R. Wallick ... June 21 96

**Tumbling** (see **Finishing**)

**Tungsten**
Making tungsten even stronger (T) ... June 7 47
1965 outlook – Technical outlook: materials (report) ... Jan. 18 148
No curb on tungsten imports (T) ... Oct. 11 31
Tungsten tubing formed from metal powders (MR) ... Aug. 30 4

**Turning**
Design of screw-machine products. (Ref. Bk. Sheets) Cappon & Eichstaedt. 7,8. S.A. Cappon 9,10 ... Jan. 4 71 / Aug. 2 111
Fast ways to change work. B.C. Brosheer (report) 1. Matching methods to machines ... Mar. 15-109-124
2. Loaders and unloaders ... Oct. 25-103-118
The flaw in standard turning tests (MR) ... Mar. 15 4
Fundamentals of turning (cover) ... Apr. 26 1
Fundamentals of turning R.T. Berg (report)
Pt 1 ... Apr. 26-79-94
Pt 2 ... Dec. 6-103-114
Getting the most out of NC. D.M. Koons & others (chart) ... Dec. 6 85
Handy micrometer clip. R. Hill (PI) ... Dec. 6 124
Lathe attachment machines elliptical cones (MR) ... July 5 3
Lathe does backspotfacing. C. McLaughlin (PI) ... Jan. 4 80
Lathe holds tight tolerance. T. Dravland (PI) ... Oct. 11 148
Milling machine turns shafts. D. Wienss (PI) ... Aug. 16 117
New turning tool test. L.A. Sowinski (charts & table) ... Mar. 15 87
Correction ... Mar. 29 85
NC lathes turn a quick profit. Bergman & Griffith ... Apr. 12 69
One-microinch finish on turned brass parts (MR) ... Oct. 11 3
Reverse angle tip doubles tool life ... Apr. 26 69
Rotary templet guides chucker ... Feb. 1 70
Simulator aids programming – duplicates motions of VTL ... July 19 91
60-inch NC lathe (T) ... Aug. 2 23
Thread cutting on the lathe, 1,2. F.C. Fehely (Ref. Bk. Sheets) ... May 10 107
Three lathes do work of six – single-point tracing ... Oct. 11 112
Toolbit serves as stylus. R. Christon (PI) ... Apr. 12 99
Tracing device replaces templets. E.J. Sass ... Aug. 16 94
Turning spherical radii. R. Klassen (PI) ... June 21 135
Turning thinwall tubes. A. Pasto (PI) ... Aug. 2 118
VTL simulator aids NC programming (MR) ... July 19 3

## U

**Ultrasonics**
1965 outlook – Technical outlook: ultrasonic cleaning (report) ... Jan. 18 150
Numerical readout with portable ultrasonic tester (MR) ... Sept. 13 3
Quivering flywheel for forming energy? (MR) ... Jan. 18 4
Sonic press for forging, forming now a possibility. Dr. D. Balamuth ... Jan. 18 118
Ultrasonic corrosion inspection (T) ... Sept. 27 29
Ultrasonics now used to test for metal fatigue (MR) ... Dec. 20 4
Ultrasonics speeds anodizing of aluminum (MR) ... May 24 3
Wire drawing gets an assist from ultrasonics (MR) ... Oct. 25 3

## V

V-blocks – Movable V-block for drilling. J. Schmidt (PI) ... Dec. 20 94

Vacuum – Vapor coating. J.E. Sandford (report) ... Mar. 1-51-66

**Valves**
Plastic replaces aluminum in F-111 cooling valves (MR) ... Sept. 27 3
Servo valve for rough industrial use (MR) ... June 21 4

Vanadium – Highly ductile vanadium can be cold-processed into sheet, rod or wire without annealing (T) ... Jan 1' 91

**Vibration**
Floating concrete base cuts machine vibration (MR) ... Sept. 27 4
Induced vibration – is it worth it? ... Aug. 2 100
Machining not aided by induced vibration (MR) ... Aug. 2 4
Rollers support gear blanks. D. Rowland (PI) ... July 19 121
Traveling rest curbs chatter. J. Schmidt (PI) ... Nov. 22 139
Two-piece damper fights vibration in milling cutters (MR) ... Mar. 15 4
Vibration-free grinding. C.W. Finkl ... Sept. 27 53
Vibration tester checks machine's dynamic stiffness (MR) ... Oct. 11 4

**VIPortrait**
Brooks, Sanford M. ... Dec. 6 125
Marx, Graham E. ... Nov. 8 119
Wright, Fred D. ... July 19 125

**Vises**
Special vise holds screws. J. Schmidt (PI) ... Sept. 27 96
Swivel vise stop pin. F. Fehely (PI) ... Nov. 22 139
Tilting table for a bench vise. J. Waller (PI) ... July 19 121
Vee helps vise, grip work. B. Schneider (PI) ... June 21 136
Vise holds small pins. J. Waller (PI) ... Aug. 2 118
Vise jaw avoids broken cutoff wheels. R. Phillip (PI) ... Jan. 4 79
Vise jaws aid milling. A. Pippi (PI) ... Mar. 29 104
Vise jaws for finished work. F. Fehely (PI) ... Oct. 11 148
Vise plate for drilling. F. Accurso (PI) ... Dec. 20 94
Work support improves vise. F. Lettino (PI) ... Jan. 18 116

## W

**Washing Machines** (see **Cleaning**)

**Welding**
Automatic friction welder joins dissimilar alloys (MR) ... Sept. 27 4
Brake shoes formed and welded in assembly unit (MR) ... Jan. 18 3
Complete mill welds fin to tube with high frequency (MR) ... Oct. 25 3
Computer reads weld x-rays. Szabo & Eppler ... Aug. 16 86
Corners drilled for welding. F. Murray (PI) ... July 19 121
Cylinders held for welding. F. Rush (PI). ... Aug. 16 118
Electron beam goes on the line. George DeGroat ... Apr. 26 75
Electron-beam welding, 1 & 2 (Ref. Bk. Sheets) (table) ... Mar. 29 97
Electroslag welding, 1,2 (Ref. Bk. Sheets) (tables) ... May 24 103
End to hole piercing in auto bodies? New stud welding system ... Feb. 15 79
Explosives form fusion welds (MR) ... May 10 4
Fabricating a deep-sea sphere. G.F. Gayer ... Nov. 22 96
Fast test for spotwelds. D.F. Wetzel ... June 21 114
Flash welders join bigger strip sections (MR) ... Aug. 16 3
'Free' power for welding in outer space (MR) ...? ... May 10 4
High-speed welding with stored-energy dc power supply (MR) ... May 24 4
'Inertia welding' (T) ... May 10 49
Japanese explosive welding technique (T) ... May 24 53
Laser welders are automated for microcircuits (MR) ... Oct. 11 4
Laser welding machine for microcircuitry (MR) ... Nov. 22 3
Laser welding – SAE's West Coast meeting ... Oct. 25 96
Monitor checks weld quality on-the-spot (MR) ... Oct. 25 3
Multiple arcs increase speed of Tig welding (MR) ... May 10 4
New technique widens horizon for arc-spot (MR) ... May 10 4
1965 outlook – Technical outlook: welding (report) ... Jan. 18 148
One-step welding with cobalt-base wearfacing alloys (MR) ... Dec. 20 3

Paste flux replaces inert gas backup for Tig welding (MR) ... Apr. 26 4
Plasma-arc welding, 1 & 2 (Ref. Bk. Sheets) (table) ... Mar. 1 67
Plastic cards played into console direct welding line (MR) ... Mar. 1 3
Plug-in programs for resistance welding (MR) ... Aug. 16 4
Portable 'Curvator' flame cuts intricate contours (MR) ... Nov. 22 3
Portable gun shoots welds in spots (MR) ... July 19 4
Pulse weld joins wire, beams, pipe (MR) ... June 7 4
Rings control welding heat on Titan III rocket engine frame. W.G. Smith Jr. ... June 7 114
Short-arc cuts tank welding costs 25% ... July 5 89
Solid-state welding source ... May 10 49
Split line forms furnace cases ... Apr. 26 72
Spotwelding with parallel electrodes (MR) ... Aug. 2 4
Stainless-steel shield keeps Ti pure in Tig welding (MR) ... Aug. 16 4
Sticky weld problem solved with wheel cooling with liquid nitrogen (MR) ... Apr. 12 3
Stress relieving Saturn's rings. Isaac Bensussen ... July 5 76
Submerged-arc welding for vertical joints (MR) ... May 10 4
Two boosts for Saturn – 1: Huge fixtures weld the S-IC. W.B. Edmiston ... June 7 109
Welded small tubing made with 'lip' (MR) ... May 24 3
Welding heat-treated steels. Doty & Szekeres (report) (charts & tables) ... July 5-91-98
Welding machine automatically joins corrugated panels (MR) ... Aug. 30 3
Welding setups for short runs for vending machines ... Mar. 29 93
Welding torch analyzer detects hydrogen, oxygen (MR) ... Dec. 20 4
Welding with a vapor shield. R.S. Martin ... Mar. 1 42
Wire produces high-strength plate welds (MR) ... Sept. 27 4

**Wheels** (see **Grinding**)

**Wire**
Brass wire takes the place of a fixed electrode in EDM slotting of turbine rotor (cover) ... Nov. 8 1
EDMing with a wire. Charles Emerson ... Nov. 8 79
Now it's warm heading. J.W. Keegan (table) ... Oct. 11 110
Wire produces high-strength plate welds (MR) ... Sept. 27 4

**Wrenches**
Outsize socket wrench. P. Hennig (PI) ... Oct. 11 148
Wrench gets at hidden screws. O. Hillig (PI) ... Feb. 15 108

## X

**X-rays**
Automation speeds flaw detection in x-rays (MR) ... Feb 1 3
Computer reads weld x-rays. Szabo & Eppler ... Aug. 16 86

## Z

**Zinc**
Big jump in zinc usage (T) ... May 24 63
High finishes at high speeds. George DeGroat ... Dec. 20 64
1965 outlook – Technical outlook: materials (report) ... Jan. 18 147
Vacuum-forming for sheet metal – 78% Zn, 22% Al alloy sheet superplasticity study ... June 7 116

# COMPANY INDEX

## (includes only feature articles)

### A

Accurate Bushing Co. Automatic size controls for grinding. James Sandford ..... June 21 111
Ace Fastener Corporation. Wire-drawing coolant improves with age ..... Nov. 8 92
Adamas Carbide Corp. Carbide cuts without coolant. A.P. Goeppert ..... Oct. 11 114
Aerojet-General Corp. 'Bracelet' brazing furnace for small spaces ..... Dec. 20 63
Electron beam goes on the line. George DeGroat ..... Apr. 26 75
Alliance Tool & Die Corp. and Alliance Mold Co., Inc. New York T & D firm branches out in South ..... Dec. 6 167
Allis-Chalmers Mfg. Co. Gang punching goes big time. Harold Lovdahl ..... Feb. 1 63
Aluminum Association. Aluminum extrusions, 1 & 2 (Ref. Bk. Sheets) (tables) ..... Feb. 15 99
American Bosch Arma Corp. New angles on conveyors. Rupert Le Grand ..... Dec. 6 94
American Radiator & Standard Sanitary Corp. Upsetting, coining bulged tube. C.R. Wallick ..... June 21 96
American Welding Society. Plasma-arc welding, 1 & 2 (Ref. Bk. Sheets) (table) ..... Mar. 1 67
Anderson Oil & Chemical Co. Luso wire-drawing fluid improves with age ..... Nov. 8 92
Androform Industries. Cold forming titanium sheet. Berkland & Alarie ..... Jan. 18 112
Applied Machine Research Inc. For tougher metals, less hp? F.R. Rieger ..... Apr. 26 65

### B

Babcock & Wilcox Co. NC guides a two-headed elephant ..... Oct. 25 102
Bendix Corp. Costs cut on path control – contouring NC system with separate interpolation. H.L. Hatschek ..... Mar. 29 77
Bliss, E.W. Co. Computer designs presses. Babcock & Ingmire ..... Nov. 22 102
Bliss & Laughlin Industries. The cost of machinability. G.B. Troup ..... Apr. 12-79-86
Bodine Electric Co. Going modern at a profit. Bodine & Helmig ..... July 19 83
Boeing Co. Hammer forming a laminate for Minuteman missile. Bjork & Foster ..... Feb. 15 74
How to peen ID's of tubes. R.F. Layton ..... May 10 77
Magnetic forming in a big way – 40 capacitors bend large elbows. Larrimer & Hinks ..... Jan. 4 47
Running rings around Saturn
1. Optics caliper Saturn's rings. E.V. Mades ..... July 5 73
2. Stress relieving Saturn's rings. Isaac Bensussen ..... July 5 76
Shrink-fit bearings for variable wings. Ray Bloomberg ..... Feb. 1 64
Those conflicting surface specs. Miller & Lash ..... Apr. 12 72
Two boosts for Saturn – 1. Huge fixtures weld the S-IC. W.B. Edmiston ..... June 7 109
Brown & Sharpe Mfg. Co. Precision Park goes to work ..... Feb. 1 72
Precision Park – Milestone (ed) ..... Jan. 4 43
Bullard, Rotary templet guides chucker. ..... Feb. 1 70
Burgmaster Corp. Twenty tools without a changer ..... June 7 127

### C

Carborundum Co. Diamond inserts solve a grinding problem ..... Mar. 1 47
Carpenter Steel Co. Now it's warm heading. J.W. Keegan (table) ..... Oct. 11 110
Caterpillar Tractor Co. 'Erector sets' cut tooling costs. Walter Dittmer ..... July 5 71
Three lathes do work of six ..... Oct. 11 112
Centaur Engineering of Detroit. Forming a plastic car in 15 minutes – Cycolac ABS sports car ..... May 10 88
Chevrolet-Tonawanda. Pistons ride a roller coaster. Charles Emerson ..... Sept. 27 62
Chrysler Corp. Two boosts for Saturn – 2. NC contouring with a punchpress. G. Neher ..... June 7 112
Cincinnati Lathe & Tool Co. Cintimatic goes horizontal ..... July 5 88
Cincinnati Milling Machine Co. Induced vibration – is it worth it? ..... Aug. 2 100
Cleveland Pneumatic Tool Co. Doubling a Keller's output turns out six jet transport flap tracks at a time. Charles Emerson ..... Mar. 1 37
Cogsdill Tool Products Inc. Bore peening finishes cylinders – 'bearingize' process. D.R. Dorff ..... Jan. 4 66
Commander Mfg. Co. New angle in drilling ..... June 21 112
Commando Tool Co. Stampers' enemy: slug pulling. P.A. Smith ..... Nov. 22 87
Commercial Shearing & Stamping Co. Center column machine gets flexible ..... Mar. 1 46
For faster die changing... Rupert Le Grand ..... Oct. 25 89
Continental Screw Co. Self-tapping screws for diecasting, 1 & 2. Harvey Phipard (Ref. Bk. Sheets) (tables) ..... Oct. 25 89
Cubic Corp. Comparator guides a drillpress ..... Feb. 1 83
Mar. 29 85

### D

Day & Night Mfg. Co. Split line forms furnace cases ..... Apr. 26 72
John Deere-Dubuque Tractor Works. NC for 'broken' long runs. B.C. Brosheer ..... Nov. 8 82
'Transfer line' for short runs ..... Aug. 16 83
Diagrind, Inc. Diamond grinding without loading ..... May 24 84
Diversey Engineering Co. EDM cuts some 'impossibles'. Kauffman & Schlesselman ..... Dec. 20 68
Dominion Engineering Works Ltd. Make the grinder fit the work ..... Feb. 15 78
Double A Products Co. Bore peening finishes cylinders – 'bearingize' process. D.R. Dorff ..... Jan. 4 66

### E

Electric Materials Co. An eye on press overloads. Rupert Le Grand ..... Mar. 15 105
Electronic Associates, Inc. Dies punch tiny circuit boards. Rupert Le Grand ..... July 19 94

### F

Fawick Corp., Fawick Airflex Div. Simulator aids programming ..... July 19 91
Finkl, A. & Sons Co. Vibration-free grinding. C.W. Finkl ..... Sept. 27 53
Ford Motor Co. The AM Award – Charles H. Patterson ..... Dec. 20 76
EDM potential untapped says J. Dillon ..... May 24 73
Manufacturing today at Ford
1. How Ford makes dies with NC ..... Dec. 20 80
2. Computer tests transmissions ..... Dec. 20 83
3. 1000 axles an hour! ..... Dec. 20 85
Ford Werke. Runs ultra-modern press line ..... Oct. 25 151
Frequency Engineering Laboratories. Brinkmanship in gundrilling. Charles Emerson ..... Feb. 15 76

### G

G & B Thread Tool Co. Keeping oil mist under wraps. L.E. Geyer ..... Aug. 30 84
Garrett Corp., Garrett-AiResearch Industrial Div. Cam control cuts contouring costs. George DeGroat ..... Sept. 27 71
General American Transportation Corp., Parker Kalon Div. When a fastener doesn't fasten. W.A. Toepel ..... Jan. 4 63
General Dynamics. Convair combines new aluminum-forming methods ..... Apr. 12 171
A new machinability index. J.R. Ewell (charts) ..... Dec. 20 72
General Electric Co. Don't trust Mike 'feel'. W.F. Conroy ..... Mar. 1 49
Five-tool vertical contouring ..... Feb. 15 72
How accurate is your NC? P.H. Grissom ..... Feb. 1 77
NC lathes turn a quick profit. Bergman & Griffith ..... Apr. 12 69
New turning tool test. L.A. Sowinski (charts & table) ..... Mar. 15 87
Oxide wheels go conductive ..... Mar. 15 107
Teaching NC troubleshooting. George DeGroat ..... July 5 78
General Motors Corp. EDM potential untapped says J. Throop ..... May 24 73
General Precision, Inc., GPL Div. Predicting heat treat growth. Michalec Sanchez (charts) ..... Dec. 6 99
Giddings & Lewis Machine Co. A laser checks out tools. R.G. Chamberlain ..... Aug. 30 71
Gleason Works. Gleason, Lawrence and Howard Carver bring a new spark to 100-yr. old Gleason Works (cover) ..... Sept. 27 1
Gleason's new gusto. A. Ashburn & others ..... Sept. 27 75
Grow Gear Co., Inc. Regearing for volume output. George DeGroat ..... June 21 100

### H

H & M Associates. For a cooler cutting tool put the vapor coolant at the tip of the cutting tool. H.J. Mote ..... Aug. 30 77
Hamilton Watch Co., Precision Metals Div. Miniaturization demands ultra-thin strip ..... June 7 197
Harnischfeger Corp. When you switch to automatics... K.U. Matt ..... Jan. 4 51
Harper Buffing Machine Co. Centrifuge spins burrs away – 'Harperizer' finishing machine. J.E. Sandford (table) ..... Mar. 29 73
Hollander Precision Tool Co. Carbide cuts without coolant. A.P. Goeppert ..... Oct. 11 114
Hoover Ball and Bearing Co. Cleanup campaign cleans up ..... June 7 123

### I

Ideal Carbide Die Co. Diamond grinding without loading ..... May 24 84
IIT Research Institute, Symbonic Control Laboratory. Finding new jobs for APT. Fein & Kreh ..... May 10 72
International Business Machines Corp. Computer speeds materials flow ..... Nov. 8 81
Vacuum-forming for sheet metal ..... June 7 116
International Electronic Research Corp. 'Blast' creates a product. J.E. Spurling ..... Aug. 2 98
International Nickel Co. (Mond) Ltd. High-speed nickel plating, 1 & 2. R.J. Kendrick (Ref. Bk. Sheets) (charts & tables) ..... Jan 18 157
ITT Corp. How to control supplier quality. P.B. Crosby (report) ..... Nov. 8-93-104

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

## J

Japan National Railways. Wheel grinding hits the rails. Charles Cohen ... May 24 74
Japax Scientific Corp. One-shot powder metal parts. George DeGroat ... Oct. 11 107
Jentzen-Miller Co. Forming a plastic car in 15 minutes – Cycolac ABS sports car ... May 10 88

## K

Kearney & Trecker Corp., Standard Machine Engineering Div. The sign language of surface finish. G.A. Roberts ... Mar. 29 78
Kisha Seizo Kiasha, Ltd. Wheel grinding hits the rails. Charles Cohen ... May 24 74

## L

LTV Vought Aeronautics Div. New coatings for hot jobs. Aves Jr. & Ecord ... Mar. 29 81
Lansing Stamping Co. Metal Flo Corp. – extreme draws in one shot ... Jan. 18 116
LaSalle Steel Co. Tellurium: Rx for machinability. L.B. Schmitt (charts & table) ... June 7 117
Liberty Mutual Insurance Co. Lifting rates for male workers, 1,2. Snook & Irvine (Ref. Bk. Sheets) (tables) ... Nov. 22 129

Standardized NC cutting tools. Alan Baker ... June21-115-122
Los Alamos Scientific Laboratory. Tracing device replaces templets. E.J. Sass ... Aug. 16 94

## M

Mele Metal Fabricators. Router, sander cut radiusing time 75% ... Mar. 29 92
Metalcraft, H.K. Mfg. Co. Plant layout loops the loop. Emil Loeffel ... Feb. 1 66
Metallurgical Consultants, Inc. A look at plastic coatings. D.E. Erickson ... Feb. 15 69
Metem Corp. EDMing with a wire. Charles Emerson ... Nov. 8 79
Midland-Ross Corp.'s Steel City Div. Carbide inserts up die life 10:1 ... Jan. 18 120
Milton Roy Co. Soluble oil takes to the pipe ... Jan. 18 122
Minster Machine Co. Change dies in 90 seconds – 'Die-Namic' process ... Mar. 9 91
Moog Servocontrols, Inc. Hydra-Point Div. Multi-part milling with N.C. Alfred Bauer ... Jan. 18 109
Moore Special Tool Co. Jig grinder takes on any angle ... Nov. 22 89

## N

NVF Company. How to work thermoplastics. V.A. Walker ... Sept. 27 73
National Acme Co. Design of screw-machine products. Cappon & Eischstaedt (Ref, Bk. Sheets) 7,8 Jan. 4-71, 9,10. S.A. Cappon ... Aug. 2 111
Neill, James & Co. (USA) Ltd. New jobs for magnetic chucks ... Mar. 15 95
Northrop Corp. How to work 8-1-1 titanium. George DeGroat ... May 10 67
Norton Co. Oxide wheels go conductive ... Mar. 15 107
That controversial Norton plan – direct factory-to-customer selling ... Mar. 15 91
Numerical Manufacturing Inc. Shop cuts NC program time. Philip Kronzer ... Mar. 1 39

## O

Olivetti. All-NC die goes to press. Caja & Garetti ... Mar. 15 92
Otis Engineering Corp. Getting the most out of NC. D.M. Koons & others (chart) ... Dec. 6 85
Oxford Chemical Corp. Selecting a prepaint line. S. Spring ... June 21 107

## P

Payne Co. Split line forms furnace cases ... Apr. 26 72
Pedrel, Inc. 'Gatling gun' controls drilling. Ed Addeo ... Jan. 4 54
Peerless Machine Co. Bandsawing or hacksawing? R.E. Nelson (chars & tables). ... Nov. 22 90
Perfecto Engineering Co. Stock straighteners for presses, 1,2. E.R. Enberg (Ref. Bk. Sheets) ... Oct. 25 121
Picatinny Arsenal. Pay-as-you-go apprenticeship ... May 10 74
Plaza Tool & Die Corp. Tooling a fourslide. C.J. Labonack 1, Aug. 2-87, 2, Aug. 16-90, 3, Aug. 30-80, 4, Sept.27-56, 5, Oct. 11-118, 6, Oct. 25-97, 7, Nov. 8-86, 8, ... Dec. 6 90
Pratt & Whitney Inc. Proposal: a 'computer gage' ... June 7 122
Sulfur pilots a boring bar ... Aug. 16 85
Press Equipment Co. How die cushions work. J. Hoenig ... Jan. 4 59

## R

Robertson Photo-Mechanix, Inc. How to micro-mill small parts, 1 & 2. Frank Dougherty (Ref. Bk. Sheets) ... Apr. 12 89
Rohr Corp. 'Wire service' programs NC. Nils Olesten ... May 10 86
Roll Coater Corp. Strip coating at 200 fpm ... June 7 119
Rollway Bearing Co. Operation sheets from a computer ... Nov. 8 90
Roper Pump Co. Hydraulic-pump retooling. Fran Ridgway ... Mar. 29 86
Rowe Mfg. Co. Welding setups for short runs for vending machines ... Mar. 29 93

## S

Sanfax Corp. Selecting a prepaint line. S. Spring ... June 21 107
Scully-Jones & Co. 'Instant tooling' for chucker setup ... Apr. 26 74
Sears, Roebuck and Co. Reverse angle tip doubles tool life ... Apr. 26 69
Sheffield Corp. Decisions, decisions – automatically – machine measures two parts, picks which bearing ball size fits best, then assembles part ... Mar. 1 48
Singer Co.'s Power Tool Div. Reverse angle tip doubles tool life ... Apr. 12 69
Snyder Corp. Center column machine gets flexible ... Mar. 1 46
Spacerays, Inc. Focusing device brings laser closer to shop ... Feb. 1 74
Speedway Machine & Tool Co. NC in a job shop. L.A. Roth ... Nov. 22 108
Sperman Metal Specialties. Machining tin-alloyed iron. J.H. Sperman ... July 19 86
Spielberg, L. & Sons. Punching deep-drawn shells. M.J. Goldstein ... Dec. 20 61
Starrett, L.S. Co. How to gage a gage block. G.D. Webber ... July 5 83
Sundstrand Corp., Sundstrand Machine Tool Div., Broaching Machine Dept. What you should know about broaching. C.O. Lofgren ... Aug. 2-101-108
Super-Temp Corp.'s Pyrolitic Graphite Div. Vapor depositing pyrolitic graphite ... Apr. 26 78
Sutton Tool Co. 24-in.-ID collet has 12 sections ... Mar. 29 94

## T

Taylor Instrument Co. Modular tooling for NC. Charles Emerson ... May 24 71
Taylor-Winfield Corp. Die manipulator opens like a clamp ... Aug. 2 92
Textron Electronics, Inc., Spectrolab Div. How to electroform mirrors. John Legnard ... Mar. 1 44
Timken Roller Bearing Co. Programmed aids for apprentice training ... May 10 83
Transue & Williams Steel Forging Corp. Brazing insures oiltight drain bushings ... Feb. 1 74
Turgeon, J.P. & Sons. High finishes at high speeds. George DeGroat ... Dec. 20 64
20th Century Machine Co. Gundrill helps cool Agena. Gus Dabringhaus ... Feb. 1 61

## U

U.S. Army Weapons Command, Springfield Armory. Mating cutters in a hurry. J.R. Nalwalk ... Apr. 12 71
US Industries, Inc. Petroleum Equipement Div. Continuous heat-quench-draw boosts strength of steel rods. ... Feb. 1 75
United States Steel Corp. Welding heat-treated steels. Doty & Szekeres (charts & tables) ... July 5-91-98

(ed) Editorial. (MR) Metalworking Report. (PI) Practical Ideas. (T) Trends.

## V

Valley Foundry & Machine Works, Inc. Short-arc tank cuts tank welding costs 25% ... July 5 89
Varian Associates. Eimac Div. No margin for error – manufacture of Klystron transmitter tube. George DeGroat ... Oct. 25 92
Verson Allsteel Press Co. Press minimizes dome thinning ... Nov. 8 84
Vei-Shan Mfg. Co. Higher pressure air for tools? ... Apr. 26 70

## W

Western Electric Co. Automatic molding at work. L.V. Stranne ... Aug. 16 88
Fast test for spotwelds. D.F. Wetzel ... June 21 114
Oil aids cold forming (table) ... July 19 88
Westinghouse Electric Corp. Check rein on computers. J.E. Sandford ... Sept. 27 67
Fabricating a deep-sea sphere. G.F. Gayer ... Nov. 22 96
Machine Tool Electrification Forum – third generation NC makes debut ... May 10 80
Whirlpool Corp. Bladder replaces mechanical expander ... Dec. 6 98
Whiting Corp. We bet a million on NC. E.E. Bergman ... Nov. 22 106
Winegard Co. New Angles in drilling – manufacturing a TV antenna ... June 21 112

## X

Xerox Corp. Making a light frame rigid ... May 10 81

Phipard, Harvey. Self-tapping screws for die-castings, 1 & 2 ... Feb. 1 83
Pichel, Marlowe & D. Hasselman. Electro-forming without stress ... Jan. 4 56
Pippi, A. Clamp speeds die grinding ... July 5 110
Counter for kick presses ... July 19 122
Dipping pliers save trouble ... Mar. 15 194
Hinge aids drilling safety ... Apr. 26 108
Lead screw becomes clamp ... June 21 136
Punch reverses countersinks ... Jan. 18 166
Scriber makes small circles ... Aug. 16 117
Strip glides into press ... June 7 147
Vise jaws aid milling ... Mar. 29 104
Pounj, V. Brazing aluminum to brass ... Dec. 6 124

## R

Ridgway, Fran. Hydraulic-pump retooling ... Mar. 29 86
Rieger, Richard F. For tougher metals, less hp? ... Apr. 26 65
Roberts, Gerald A. The sign language of surface finish ... Mar. 29 78
Roth, Louis A. NC in a job shop ... Nov. 22 108
Rough, C. Punch made from hacksaw ... Oct. 11 147
Rowland, D. Roller arm gages neck depth ... Aug. 30 104
Rollers support gear blanks ... July 19 121
Rush, F. Angled punches shed slugs ... June 21 135
Burrs come off taps fast ... May 24 113
Cylinders held for welding ... Aug. 16 118
Dimensioning special punches ... Apr. 12 99
Disk acts as tool stop ... Nov. 8 113
Fixture clamps thinwall tubing ... Dec. 20 93
Gage for cutoff saw ... June 7 147
Grinding fixture made from channel iron ... Nov. 22 140
Jig bends flat stock ... May 10 116
Odd aluminum shapes held for milling ... Mar. 15 193
Removable split cones aid heavy stock control ... Oct. 11 147
Stepped stop cuts die cost ... Mar. 1 75
Swivel fixture speeds drilling ... Jan. 4 79
Tool removes scraping burrs ... Feb. 1 91
Tool saves wear on centers ... Jan. 18 165
Two cuts make square hole ... Mar. 29 103
Sanchez, M.I. & G.W. Michalec. Predicting heat treat growth ... Dec. 6 99
Sandford, James E. Automatic size controls for grinding ... June 21 111
Centrifuge spins burrs away ... Mar. 29 73
Check rein on computers ... Sept. 27 67
Vapor coating ... Mar. 1-51-66
Sandford, J. E. & others. Gleason's new gusto ... Sept. 27 75
Sass, Edward J. Tracing device replaces templets ... Aug. 16 94
Schlesselman, Joe & J. H. Kauffman. EDM cuts some 'impossibles' ... Dec. 20 68
Schmidt, J. Countersunk holes are smooth ... Dec. 6 123
Movable V-block for drilling ... Dec. 20 94
Special vise holds screws ... Sept. 27 96
Tapping blind holes ... Aug. 30 103
Tool for workpiece layout ... Oct. 25 128
Traveling rest curbs chatter ... Nov. 22 139
Schmitt, L.B. Tellurium: Rx for machinability ... June 7 117
Schneider, B. Vee helps vise grip work ... June 21 136
Schramm, F. Springs hold work on center ... Feb. 1 92
Smith, G. Bearing races removed from blind holes ... July 19 121
Removing pins and bushings from blind holes ... Aug. 2 117
Smith, Harold. Taking heavy cuts with ceramics ... May 24 82
Smith, Patrick A. Stampers' enemy: slug pulling ... Nov. 22 87
Smith, Wilmer G. Jr. Rings control welding heat ... June 7 114
Snook, S.H. & C.H. Irvine. Lifting rates for male workers, 1,2 ... Nov. 22 129
Sowinski, L.A. New turning tool test ... Mar. 15 87
Sperman, J.H. Machining tin-alloyed iron ... July 19 86
Spinks, H. Broken file removes lathe backplate ... Oct. 25 128
Collar adjusts boring tools ... July 19 122
Spring, S. Selecting a prepaint line ... June 21 107
Spurling, John E. 'Blast' creates a product ... Aug. 2 98
Stecher, Elizabeth M. AM survey shows machine tool buying to ride high through '66 ... Aug. 30-85-96
Stranne, L.V. Automatic molding at work ... Aug. 16 88
Strasser, F. Bearings solve problem with sliding friction ... Dec. 20 94
Blanking odd-shaped metal stampings ... Apr. 26 107
How to roughen a stamping ... Jan. 18 166
Progressive cropping die ... July 5 110
Tool assembles and checks ... Mar. 15 194
Szabo, N. & W. Eppler. Computer reads weld x-rays ... Aug. 16 86
Szekeres, E.S. & W.D. Doty. Welding heat-treated steels ... July 5-91-98

## T

Telford, A. Groved cutoff tool stays free of chips ... Apr. 26 107
Thorne, J. Adapter for standard grinder ... Dec. 20 94
Toepel, Walter A. When a fastener doesn't fasten ... Jan. 4 63
Trail, T. Reducing a rod's diameter ... Mar. 1 75
Troup, George B. The cost of machinability ... Apr. 12-79-86

## U

Unger, F. Special scope checks welds ... Nov. 22 140

## V

Vena, A. Bending bars at sharp angles ... Mar. 1 76
Gage block guides hand drill for making metal cutouts ... Oct. 25 128

## W

Walker, Vincent A. How to work thermoplastics ... Sept. 27 73
Wallace, A. Trickstops tap breakage ... Mar. 1 75
Waller, J. Ball makes telescopic shaft ... Jan. 18 165
Boring bar pivots in special holder ... May 10 115
Castings sealed for testing ... Oct. 11 147
Coned bush curbs chatter ... May 24 113
Grinding fixture is water cooled ... Feb. 15 107
Interlocking cutters have unusual design ... Feb. 1 91
One holder for many tools ... Mar. 15 193
Pendulum tool forms ends of tubes ... July 5 109
Shaped chuck jaws held in collet ... Mar. 1 75
Simple drive speeds grinding ... Aug. 30 104
Simplify end plate removal ... Mar. 29 104
Single stroke puts two notches in tubes ... Oct. 25 127
Special tool removes burrs ... Jan. 4 79
Tilting table for a bench vise ... July 19 121
Tool grooves, trepans, mills ... Apr. 26 107
Tool recesses blind holes ... Dec. 6 123
Toolholder for unusual planing work ... Nov. 8 113
Vise holds small pins ... Aug. 2 118
Why not try square bushings? ... Apr. 12 99
Wallick, C.R. Upsetting, coining bulged tube ... June 21 96
Webber, George D. How to gage a gage block ... July 5 83
Wetzel, D.F. Fast test for spotwelds ... June 21 114
White, B. Magnet base for centering ... Feb. 1 92
Wienss, D. Cure for odd locking keyways ... Oct. 25 127
Milling machine turns shafts ... Aug. 16 117
Winger, W. Removing a seized pipe plug ... Aug. 30 104
Wolf, B. Nonrepeating devices for power presses ... June 7 147
Wood, J. Lost and found lugs ... May 10 115
Wood, Sam K. Watch those variable costs! ... Feb. 15 80
Wragg, E. Keys pumped off flywheels ... May 24 114

## Z

Zietowski, F. Setup reduced pin diameter ... Jan. 18 166
Zirkle, L. Dial indicator turns all ways ... Dec. 6 124
